THURSDAY MORNING, VOL. XXXVIII, JULY 31, 1919.

MEXICAN OFFICIALS ARREST A PROMINENT AMERICAN.
Troops Guard Danger Zones in Riot-Stricken Chicago.DEATH LIST
IS THIRTY.Situation Shows an
Improvement.Attacks are Growing More
Scattered with Few
Participants.Black Belt on South Side is
Barred to Whites and Ne-
groes are Hidden.(BY A. P. NIGHT WIRE.)
CHICAGO, July 30.—The
troops were ordered from
the armory tonight to various
points regarded as danger
centers in the race riots. Request
for the troops was made to
Adj. Gen. Dickson by Mayor
Thompson.The decision to use troops to
patrol the dangerous parts of the
city was taken tonight as a
precautionary measure after Adj.
Gen. Dickson had made a round
of the south side negro district and
its environs.He said the situation was more
serious than twenty-four hours be-
fore. It was not deemed necessary
at the time the Mayor asked for the
troops to proclaim martial law and
whether Gov. Lowden was prepared
to take that step was not made
known. It seemed to be generally
believed that placing the militiamen
on patrol duty would prevent
further serious rioting.The decision to appeal to the State
executive for troops to patrol the
streets was reached by Mayor
Thompson after a long conference
with members of his cabinet.
Gov. Lowden was notified of the
decision and on the arrival of Adj.
Gen. Dickson at the Mayor's office
the formal request was made. There
was little delay in setting the troops
in motion.After notifying the regimental
commanders that the troops would
be used, the adjutant-general con-
ferred with Chief of Police Gar-
rity, and with a detailed map of the
danger zone set about giving

COVENANT.Drop Reservation
Policy on Treaty.Republicans Taking New At-
titude Which may Mean
Surrender.Claim is Made that There are
Enough Favoring Votes
for Ratifying.

BY ROBERT R. ARMSTRONG.

(EXCLUSIVE DISPATCH.)
WASHINGTON, July 30.—Rati-
fication of the covenant of the
League of Nations and the peace
treaty seems practically assured.
This afternoon Senators of the Re-
publican side began the concrete
preparation of interpretation—not
reservations—which will appear in
the resolution of the Senate ratify-
ing the treaty. In this conference
were the following:McCumber of North Dakota, Mc-
Nary of Oregon, Cummins of Iowa,
Lenroot of Wisconsin, and Kellogg
of Minnesota. Twenty other Sen-
ators on the Republican side will
agree to the interpretations now be-
ing prepared. These votes, with the
votes of the Democratic supporters
of the President, will give the neces-
sary two-thirds for the ratification
of both the League of Nations cov-
enant and the treaty of peace.This followed a meeting of sev-
eral Senators, among those present
today at the home of Senator Lodge,
chairman of the Foreign Relations
Committee of the Senate, last night.
It is believed here that the action
of the western Senators is part of a
thoroughly understood plan which
is to be carried out by the Senate
as a whole. The action of the west-
ern Senators is a very deep and
very difficult hole. Another
group of Senators, however, are
interpretations will be held tomor-
row at 2 o'clock.The peace treaty with Germany
was discussed by President Wilson
today with four more Republican
Senators. All of them understood to
be unwilling to accept the League of
Nations in its present form.

OPPOSE RESERVATIONS.

The question of including reserva-

"CHEAPER FOOD OR MORE PAY!"

Communication to President Wilson from Brother-
hood of Locomotive Engineers Says Situa-
tion is Due to Profiteering.

(BY A. P. NIGHT WIRE.)

WASHINGTON, July 30.—The alternative of governmental
action to force down the cost of living or of demand by the rail-
road engineers of the country for another increase in wages was
presented to President Wilson today by Warren S. Stone, grand
chief of the Brotherhood of Locomotive Engineers, and members of
the brotherhood's advisory board.Detailing conclusions reached by
the advisory board at its recent
meeting in Cleveland, Mr. Stone de-
clared that, while the railroad en-
gineers found themselves "obliged to
again request an increase to meet
the mounting cost of living," they
were of the opinion that the "true
remedy for the situation and one
that will result in lifting the burden
under which the whole people are
struggling, is for the government to
take some adequate measures to re-
duce the cost of the necessities of
life to a figure that the present
wages and income of the people will
meet."

NO PLAN OUTLINED.

The brotherhood board outlined no
plan of action for the government to
take beyond saying it was believed
that "this situation is brought about
mainly by conscienceless profiteering
by the great interests who have ac-
quired control of all the necessities
of life."President Wilson, it was said at
the White House, was much im-
pressed with the statement pre-
sented and promised to give serious
consideration and study to the question
of what the government might be
able to do. Previous to their con-
ference with the President the
brotherhood officials conferred with
Director-General Hines, who ex-
pressed sympathy with their request
that government action be taken
to lower living costs.The President was told by the
brotherhood board "that a wide-
spread spirit of unrest exists among
all classes, especially among wage-
earners whose wages will no longer
provide adequate food, shelter and
raiment for themselves and fami-
lies."

STATEMENT TO PRESIDENT.

After requesting that some action
be taken by the government, the
statement read to the President byMr. Stone, and which was also ad-
dressed to members of the Cabinet,
said: "Should this not be considered
(cheerfully) we will be forced to urge
that those whom we represent be
granted an increase in wages to
meet the deterioration of the pur-
chasing power of the dollar, be that
what it may, which can be easily
determined by competent authority.
This action may be unique, and it
may be properly termed a pioneer
movement in the history of labor
organizations in seeking an in-
crease with the Chief Executive of
our country, and, in a manner, sug-
gesting to him the convening of the
members of his Cabinet, or that
portion that may be quickly as-
sembled. However, the result sought
seems to us to justify the means, and
should our efforts in this direction
completely fail, then we will be
forced to request for those whom we
represent the granting of an increase
in wages to enable them to live ac-
cording to the American standard."

MAJORITY AMERICANS.

"We invite your attention to the
fact that approximately 77 per cent.
of the locomotive engineers are
American-born citizens, and it may
be safely stated that the remaining
per cent. are naturalized citizens,
and they have, of course, a great
interest in not only their own wel-
fare, but the welfare of all the
people, and they are not unmindful
of the fact that the wages of your
past efforts in behalf of the
people. Yet we find ourselves
today earning less money than we
did prior to the war. This can be
demonstrated by simply taking as
an illustration a daily wage of \$1
prior to the war, which at that time
was worth 500 cents and today it is
worth, judging from competent au-
thorities, only \$1.25.""So, while it may be stated that
we have had a substantial increase
in compensation, when considering

REBELS IN HONDURAS WIN.

Gutierrez Party Leader Reported Slain
and Supreme Court Justice Fugitive.

(BY CABLE AND ASSOCIATED PRESS.)

SAN SALVADOR, July 30.—The town of Danli, close to the Nicara-
guan frontier, has been captured by revolutionists in Honduras, accord-
ing to dispatches published here today. In the fighting Col. Jacinto Velas-
quez, a leader of the Gutierrez party, was killed. Gen. Francisco Arguel, with
400 revolutionists, is reported to be ready to attack Ocotepeque, in
Western Honduras.SAN JUAN DEL SUR, July 30.—
Dr. Zuran, Chief Justice of the Su-
preme Court of Honduras, is a refu-
gee in the American Legation at Tegucigalpa, while Dr. Lopez Pa-
dilla, former Honduras Minister to
Nicaragua, and Dr. Saturnino Mena
have been imprisoned in Tegucigalpa
in connection with the revolution in
Honduras.Advices received over the only
telegraph wire working south from
Honduras today are to the effect
that there was a serious encounter
Tuesday in the department of Valle
between government forces and
rebels.GENERAL EASTERN Conference

GOVERNMENT TO SELL
FOOD BY MAIL ORDER.POSTMASTERS TO DISPOSE OF
SURPLUS SUPPLIES LEFT
OVER BY WAR.

(BY A. P. NIGHT WIRE.)

WASHINGTON, July 30.—

Through the postmasters of the
country, the War Department
tomorrow will offer direct to
consumers its present available
supply of surplus foodstuffs,
amounting to approximately
\$41,000,000. This
surplus, consisting of canned
vegetables and meats, is ex-
pected to be sold within a week
at prices representing the cost
to the government, plus post-
age.Arrangements for the sale of the
foodstuffs, directed by a
resolution passed by the House,
were made today by Secretary
Baker with Postoffice Depart-
ment officials.Secretary Baker said a price
list covering the entire avail-
able surplus would be prepared
at once. This list would be
sent out to each of the 14,000
postmasters of the country, and
to every rural route carrier.

GIVEN HER LIBERTY.

Angeleno Girl Freed in New York
on Unjust Vagrancy Charge.

(EXCLUSIVE DISPATCH.)

NEW YORK, July 30.—Helen Ed-
wards, 24 years old, the Los An-
geles girl who was convicted of
vagrancy by Magistrate Mancuso in
the women's night court on March
4 and appealed, was acquitted today
by a jury before Judge McIntire, in
general sessions. The girl was
originally found guilty on the uncor-
roborated testimony of Detectives
Walsh and Brady.In commenting on the verdict
Judge McIntire criticized "the care-
less and imprudent way that mat-
ters are determined in magistrates'
courts" and made special refer-
ence to Magistrate Mancuso in this
connection.SOUTH AMERICA TRADE
TO GET TROOP SHIPS.

(BY A. P. NIGHT WIRE.)

WASHINGTON, July 30.—Many
ships now being used by the War
Department for the transportation
home of troops will be placed in
South American passenger and
freight service. This was learned
today from a dispatch from the
Department of the Navy.The larger type now being used
as transports would be turned back
immediately and placed in service
between New York and South
America.POLISH PREMIER
LEASES OIL LAND.

(BY A. P. NIGHT WIRE.)

Padarowski Turns Over Control
of Ranches Near Santa
Barbara.SANTA BARBARA, July
30.—Ignace J. Padarowski,
famous pianist and Premier
of Poland, has leased his 5000-
acre ranch in San Luis Obispo
and Santa Barbara counties to
the Petroleum Midway Com-
pany for oil exploration.When Padarowski bought the
property several years ago it
was for the purpose of
establishing a Polish colony,
according to the announce-
ment at the time, but the war
stopped the plan. The oil
deal was arranged through a
San Francisco bank. Count
and Mrs. Padarowski gave
their residence as Moraga,
Switzerland.

YORK COAL STRIKE OMINOUS

(BY CABLE AND ASSOCIATED PRESS.)

LONDON, July 30.—Failure of the attempt made today at Leeds in
a conference of coal miners and their employers to end the coal strike
caused surprise and disappointment. The leaders of the miners refused
to accept the government's formula for bringing an end to the controversy
or to be bound by the action of the Miners' Federation, declaring in favor
of a return to work.For the moment the deadlock is complete. No arrangement has been
made for a resumption of the conference as far as is known, and the

(BY A. P. NIGHT WIRE.)

MEXICO CITY, July 30.—

The arrest of Davis Morris, an
American, general superintendent
of the express system, and
Felipe Pescador, former general
director of the Mexican National
Railways, was ordered today by
the District Court as the result
of an investigation of railroad af-
fairs.Morris and Pescador were
charged with irregularities in the
financial affairs of the railways.A writ of "amparo," which
is a process staying further pro-
ceedings and somewhat similar
to the American writ of habeas
corpus, was obtained by both
men, delaying further judicial
action for seventy-two hours.The investigation of the affairs
of the Mexican National Rail-
ways followed the publication by
newspapers here of many criti-
cisms on the management and
allegations of irregularities.Pescador recently resigned as
Director-General of Railways and
Col. Pauline Fentes, man-
ager of the Southeast Railways,
was appointed to succeed him
on July 8.

STOP ARMS EXPORTATION.

(BY A. P. NIGHT WIRE.)

WASHINGTON, July 30.—Con-
gress would declare itself opposed
to exporting to Mexico of any
arms or munitions of war, under a
resolution introduced today by Rep-
resentative Hudspeth, Democrat,
Texas.The resolution asserts that inas-
much as the existing embargo on
shipments of arms to Mexico per-
mits certain exceptions, Congress
should go on record as opposing
any importation whatever.President Wilson, through a
proclamation, made public several
days ago, directed no arms or mu-
nitions of any kind should be sent
into Mexico, except under such
limitations as might be prescribed
by the Secretary of State.Representative Hudspeth's resolu-
tion follows:That inasmuch as the President
of the United States has found that
there exists in Mexico conditions of
domestic violence, promoted by the
use of arms and munitions of war,
procured from the United States, as
expressed in the embargo proclama-
tion dated July 25, 1919, and inas-
much as he has, in consequence,
forbidden the exportation to that
country of all arms or munitions of
war, except under limitations and
exceptions to be prescribed by the
Secretary of State, it is the sense
of Congress that this measure shall
be administered impartially and
without limitation or exception as to
any citizens or authorities of the re-
public of Mexico.The Hudspeth resolution was
dropped into the bill clerk's basket
without comment and referred to
committee for consideration. Ac-
tion on it before the House recess,
beginning next Saturday, seems im-
probable, but during the vacation
the inquiry into Mexican affairs will
be continued by the House Rules
Committee. William Gates of Bal-
timore, archaeologist, will resume
his testimony before the committee
next Friday.Representative Hudspeth, com-
mittee chairman, said:

Mexico be prohibited. (Map by Charles Hamilton Owens of The Times.)

GOVERNMENT WIRE

RULE ENDS TONIGHT.

WAR-TIME RATES STILL IN EF-
FECT: BURELSON SLAPS
POSTAL COMPANY.

(BY A. P. NIGHT WIRE.)

WASHINGTON, July 30.—Gov-
ernment control of telegraph and
telephone properties will end at
midnight tomorrow night. Orders
for their return to private owners
were issued today by Postmaster-
General Burleson as required under
a resolution adopted by Congress
and signed by President Wilson
ten days ago.Mr. Burleson, in a statement ac-
companying his order, said sound
public opinion ultimately would de-
termine "how this trust has been
met," and that he was content to
abide by the result. Besides this
reply to criticisms of his manage-
ment, the Postmaster-General also
took a parting shot at the Postal Telegraph
Company, most of the officers of
which were removed some 10 months
ago because of what he termed in-
terference with government man-
agement. The Postmaster-General
did not mention the company by
name but said "that with one no-
table exception the reason for whichis thoroughly understood by those
who have kept informed" every
wire company had given him loyal
cooperation.Under the resolution of Congress
directing the return of the com-
panies, government fixed intrastate
telephone rates are to remain in
force for a period of four months
unless sooner changed by State
commissions, but no provision was
made as to telegraph rates. Clar-
ence H. Mackay, president of the
Postal company, in urging Congress
to provide for speedy return of the
properties said his company could
reduce rates 10 per cent. and still
earn a profit.This statement was recalled to-
day in connection with the return
of the properties and a rate war
between the telegraph companies
was viewed in some quarters as a
possibility. Telegraph rates were
increased approximately 20 per cent.
last March to meet increased sal-
aries of operators and other em-
ployees and rising costs of mate-
rials.

CARRANZA SPIES INFEST TAMPICO.

(EXCLUSIVE DISPATCH.)

WASHINGTON, July 30.—Washington officials were surprised today to learn that the Mexican govern-
ment has dispatched a small army of secret service men to the Tampico oil fields to secure evidence against
American companies operating there.These detectives are seeking employment with the oil companies, according to information which has
been transmitted to the State Department, and the impression prevails in official circles in Mexico City that
they have instructions to manufacture evidence if they fail to find it otherwise.Mexico City, who is now the head of
the Carranza secret service, dis-
patched the men, the exact number
of whom is not disclosed. There
seems to be no doubt, however, as
to the purpose in sending them to
the oil fields, as it has been noised
about in Mexico City that they are
to "get the goods."State Department officials say the American
companies have taken no action in
the Tampico district without notify-
ing the department. These com-
panies have done nothing, it is said,One of the things the Carranza
detectives hope to learn, it is re-
ported, is that the oil companies
have aided revolutionaries in the
campaigns of the latter against the
Carranza government. Oil company
officials say there is no foundation
for this suspicion.Discussing his resolution, which
makes no exceptions to the strict
ban on shipment of munitions to
Mexico, Representative Hudspeth of
Texas, said:"Carranza bullets kill as quickly
as Villa bullets and it has been re-
peatedly demonstrated that Carranzaas soldiers have participated in
raids against Americans and their
property. I do not want any of the
factions in Mexico to receive arms
from this country. They should all
be treated as one. I do not want
rifles and ammunition shipped into
Mexico from this country for those
guys will be turned against Ameri-
cans at every opportunity."The National Association for Pro-
tection of American Rights in Mex-
ico, which recently made public a
list of 317 American citizens mur-
dered in Mexico since 1913, an-
nounced five more cases today which

President Frankly Answers Republican Questions on Shantung.

EXPLAINS VIEW ON RESERVATION

Senator Harding Gets Idea of President.

Tampering with League is Opposed.

French Treaty will be Subject of Attack.

(Continued from First Page.)

tion in the Senate's ratification of the treaty is understood to have been the chief topic of discussion, some of the President's callers telling him that the President's attitude was impossible, and Mr. Wilson reiterating his aversion to any change of qualification which might reopen diplomatic negotiations. Each of the Senators indicated afterward that his views had not been changed. The President saw Senators Dillingham, Vermont; Harding, Ohio; Fernald, Maine, and Lenoir, Wisconsin. He talked for an hour with each of them, going over many features of the Versailles negotiations. None would discuss his conversation with the President in detail, but Senator Harding, who is a member of the Foreign Relations Committee, made a brief statement saying Mr. Wilson had emphasized the possibility that Senate reservations might encourage other nations to qualify their acceptance of the league.

Tomorrow the President will see three other Republican Senators while the Senate resumes debate on the treaty and the Foreign Relations Committee begins public hearings on the economic sections with Bernard Baruch, an adviser to the American peace delegation, as the first witness.

Both the Senate and the committee had recessed over today and many Senators went over for the first time the official text of the special defensive treaty with France, submitted for ratification yesterday by President Wilson.

Although most of them reserved judgment, it became apparent that the treaty's ratification would be bitterly contested.

FIGHT FRENCH TREATY. Two objections about which debate is expected to center are that the treaty departs from the tradition of no entangling alliances and that it violates the constitutional provision that Congress alone can declare war. Those who have their opposition on the latter ground declared that by the promise to go to the aid of France immediately in case of any unprovoked attack on her from Germany, all future Congresses would be deprived of their power to decide for war or peace whenever the treaty terms were invoked.

To this administration leaders replied that the United States has made similar promises to go to war under certain circumstances in the past, citing the treaty by which this country guaranteed Panama's independence and the Monroe Doctrine.

DILLINGHAM'S ATTITUDE. Senator Dillingham of Vermont, first of the Republican Senators to see President Wilson today when, he

Finda Wilson Frank About Shantung.

(Photo copyrighted by Harris & Ewing, Washington.) Senator Dillingham of Vermont.

resumed his discussion of the treaty with members of the Senate majority, announced on leaving the White House that he expected to vote for the treaty with reservations.

Senator Dillingham said he had a very "satisfactory and delightful" talk with the President, who answered frankly many questions concerning the negotiations at Paris, including the Shantung settlement.

President Wilson did not indicate to the Senator that he would make a public statement concerning Shantung.

Senator Harding of Ohio, a Republican member of the Foreign Relations Committee, also conferred with the President. Upon leaving the White House he dictated this statement:

"The President especially emphasized the embarrassments and delays which would result from reservations by the United States, because such a course will justify action on the part of the other signatories of the treaty."

Senator Harding denied that he had become a "convert" to the President's programme of ratification of the treaty without reservations.

Unusual steps to guard the official text of the French defensive

treaty submitted yesterday to the Senate by President Wilson, pending final action upon the convention by that body, and being taken, it became known today. These precautions will continue, according to Secretary Dillingham of the Senate, until the treaty has been finally deposited in the State Department vaults.

With the receipt of the treaty, which bears the signature of Premier Clemenceau and the grand seal of the French republic, as well as President Wilson's signature, the iron grating separating the executive clerk from the rest of the secretary's office was ordered closed and locked, and all persons entering the secretary's office were closely scrutinized.

OFFICIAL ENGLISH TEXT. Senate officials declined to send the treaty to the government printing office, but had a typewritten copy made inside the barred inclosure.

The text of the French treaty submitted by President Wilson was the official copy in English and differed only slightly in verbiage from the English translation from the French text which was made public by the French Foreign Office and cable to the United States by the Associated Press, on July 2.

Neither the Senate nor the Foreign Relations Committee met today. Beginning Thursday, however, the committee expects to resume daily meetings, hearing Dr. Palmer, Norman Davis and F. W. Taussig and possibly some other advisers on economic provisions in addition to Mr. Baruch.

WEST IS STRONG FOR LEAGUE OF NATIONS. CUMMINGS TELLS PRESIDENT SENTIMENT IS UNANIMOUS FOR RATIFICATION.

(BY A. P. NIGHT WIRE.)

WASHINGTON, July 30.—Homer S. Cummings, chairman of the Democratic National Committee, discussed with President Wilson today the political outlook for 1920 and the attitude of the country toward the peace treaty and the League of Nations, describing his observations during his recent two-month trip through fourteen Western States.

The conference was the first the national chairman had had with the President since last December. Mr. Cummings refused to discuss the possibility of Mr. Wilson again leading his party in the 1920 election and would not affirm or deny that this subject was broached during the conference.

Chairman Cummings said he told the President the country was overwhelmingly in favor of immediate ratification of the treaty and its League of Nations covenant, without changes or reservations, and the attitude of the country toward the League was understood to have been emphatically confirmed.

Many matters of party interest were understood to have been taken up and policies and legislation considered from every conceivable angle.

The President was said to have outlined to Mr. Cummings the tentative itinerary of the trip he will take through the country. The proposed trip was understood to have received the chairman's approbation.

In the States he visited, Mr. Cummings informed the President if he had an opportunity to vote on the question today a ten to one majority would be given in favor of immediate ratification of the league and covenant without change.

California, the home of Senator Johnson, one of the leading opponents of the league, Mr. Cummings said he found the sentiment four to one in favor of the league.

PACIFIC COAST AIR MAIL SERVICE PLEA. (BY A. P. NIGHT WIRE.)

WASHINGTON, July 30.—A bill directing the Postmaster General to establish and operate air mail service between New York and San Francisco was introduced today by Representative Kahn, Republican, California.

CREATIVE FAITH IN LEAGUE PACT

Secretary Lane Outlines Treaty's Value.

Safeguards for America are Doubled.

Covenant will be Agent, not National Master.

(EXCLUSIVE DISPATCH.)

WASHINGTON, July 30.—In an address here this afternoon Secretary Lane made a careful analysis of the League of Nations covenant. He explained to all the people in the Interior Department just what the proposal was, and why it should be ratified by the United States.

We were compelled to a League of Nations under the armistice, Mr. Lane urged, saying: "When Germany was broken, and came seeking peace, she came with those fourteen points in her hand as the basis upon which she would stop making war. We gave her peace upon that basis. And one of those fourteen points was that there should be created a League of Nations. And England, France and Italy formally agreed that this should be so. To us an armistice signed upon terms which we had proposed and which included the league and then to have refused to offer such a league as part of the peace would have required an explanation that does not now seem altogether consistent with promises of straightforward dealing."

As to any alternative policy Secretary Lane said:

"I fancy that I apprehend the policy which every patriotic man favors and does not fully express; and it seems to me far more impracticable as a lasting policy than the League of Nations. It is characterized as a policy of American isolation plus American intervention in any war on our own terms, and all other evils which the United States under this conception of itself would be a possible party to every international quarrel, a potential ally with either party, but no one could learn in advance on which side its weight would be thrown. Unless the United States would have no set, announced formula and promulgated policy. There would be no rules to the game."

PRIZE FIGHT SIMILE.

"America would stand as it were, at the ringside of every fight and feel free to leap to the ropes and take up the cause of either party against the other, and then having decided to fight, return to its own sweet domestic life, saying that it had intervened for humane reasons, but that it was not interested in the result, and would not interfere with the outcome of the fight."

"But soberly, can we calmly face the world and proudly say that the plan which ingenious man has devised for the great autocrats, and its lessening will not be given countenance by America—the American people? Can we calmly face the world and proudly say that too much like Germany refused to join at the Hague? Can we wholeheartedly say that it is best for all that about the world, and at this time and, refusing to join hands with all the other nations, tell them that we shall remain a law unto ourselves, a sage among the nations?"

"Unless I am greatly mistaken just such a policy had much to do with the coming of this world war. It did. England did not tell Germany what her policy would be till the time came to declare war, and then it was too late."

PREVENTION IS HOPE.

"The world does not need nations that are judicial after the act, so much as it needs nations that are executive and legislative before war comes—prevention not punishment is the large hope."

"For while we are not so profoundly certain that the way to a sure and general peace has been found, we are profoundly certain that some experiment must be made. The old way has been a failure. Can we not agree on that?"

"Letting nations that hate and nations that are enemies of each other, armed themselves without limit, that they may show their power to their neighbors, that live in trembling and fear, is it old way played out, it is too costly."

"We are committed by our conscience and by our conception of the right relation between men to end this old way if that is possible. And we know that it is possible. It is possible only if we make an effort in hope and with courage to find some new way to live. This new way is the League of Nations. It does not seem to me to be the date of a mythical idealism or the beckoning call of a sentimental internationalism. It is rather the commitment of common sense and the expression of a practical Americanism."

SOVEREIGNTY IS SECURE.

"Our sovereignty is secure because every act of the league which could affect us must be taken with our consent and cannot be taken otherwise. The covenant forming the league is based on the assumption that the nations of the world are to be treated as equals. It is essentially a gentleman's agreement and no action can be taken against a nation without its joining in the proposed plan. We remain masters of all our internal affairs. The right to pass such laws as we desire, to make such restrictions or prohibitions on commerce as we see fit. An American tariff policy and exclusion policy are secure."

LEAGUE IS EUROPE'S HOPE.

Hoover Believes Without America's Participation in Covenant New Republics Will Lose Freedom and Autocracy Will Regain Its Clutch.

BY A STAFF CORRESPONDENT.

(BY CABLE—EXCLUSIVE DISPATCH.)

PARIS, July 29.—From Herbert Hoover I have obtained an expression of his views regarding the relationship between the League of Nations and the present and future situation in Europe. His opinions are important not only because of the great influence he possesses among peoples who realize the tremendous benefits of the relief work accomplished under his direction in these five years of war, but on account of his intimate personal knowledge of the political, social and economic conditions in practically every country that has been touched by the world conflict.

Mr. Hoover's reluctance to discuss publicly matters having an international, political or semi-political aspect is well understood by those who have been brought in contact with him. In view of that fact it is apparent that, in consenting to express his views on the dangers which threaten the world through the efforts to minimize the power of the autocratic forces, he was deeply concerned over the situation.

"To abandon the covenant now means that the treaty is a dead letter," he said. "The need of the hour is to see that the treaty is not a dead letter, but a living thing. His review of the relationship between the League of Nations and the world situation since 1914 that without the league the danger of oppression which existed before the war would have been renewed. His review of the relationship between the League of Nations and the world situation since 1914 that without the league the danger of oppression which existed before the war would have been renewed."

He emphasized the influence which the United States had assumed in world affairs through the League of Nations. "We were absolutely disinterested and pointed out how everybody in Europe who was able to read looked at the United States as the guarantor of their new liberties."

Referring in particular to the League of Nations, he said: "Unless these countries had a guiding hand and referee in their quarrels, a court of appeals for their wrongs, this Europe will go back to chaos. If there is such an institution, representing the public opinion of the world, and able to exert authority, they will grow into stability. We cannot turn back now."

"There is another point which should be emphasized. World treaties hitherto have always been based on the theory that through the good will of the world they can be enforced. The very machinery by which the treaty is to be executed, and scores of points yet to be solved which have been referred to the League of Nations, is a method of securing more mature judgment. In a less heated atmosphere, justifies the creation of the league."

"To abandon the covenant now means that the treaty itself will collapse."

TOO LATE TO FILL BACK.

"It would take the exposure of but a few documents at my hand to prove that I have been the most reluctant of Americans to become involved in this situation in Europe. But having gone in with our eyes open and with a determination to free ourselves and the rest of the world from the dangers that surrounded us, we cannot now pull back from the job. It is no use to hold great revivals and then go on leaving a church for continued service half done."

"We have succeeded in a most extraordinary degree in imposing upon Europe the complete conviction that we are absolutely disinterested. The consequence is that there is scarcely a man, woman or child who can read in Europe that does not look to the United States as the ultimate source from which they must receive assurance and guidance in the liberties which they have now secured after so many generations of struggle."

"This is not a problem of protecting the big nations, for the few that remain can well look after themselves. What we have done is to set up a score of little democracies, and if the American people could visualize their handiwork they would insist with the same determination that they did in 1917 that our government proceed."

(Copyright, 1919, by the New York Times.)

by a non-American country we will be free to oppose.

CONGRESS RIGHTS SAFE.

"The right of Congress alone to declare war is not invaded. We cannot, even on the advice of the league, be compelled to participate in any war. There is no implication that we will."

"The guarantee, in which we join, of national boundaries and independence, is as against outside invasion. It is a world-wide extension of the Monroe Doctrine. It permits revolutions or civil war or peaceful change of boundaries. This would be a last step in a possible series. That is to say, if a nation wilfully and without submitting its controversy to the scrutiny and consideration of the league invades another country for the purpose of annexing it or overthrowing its sovereignty, this nation, and those similarly situated, would be morally required to help the invaded country, and this might be effected by following a series of steps running as follows: A joint or individual note of protest; the severance of diplomatic relations with the offender or expulsion from the league; steps not calling for Congressional action. If these were not sufficient, there would follow more drastic acts: A plenary boycott, assistance to the invaded country or its allies in the form of money or munitions; or, lastly, a declaration of war. These last would all come only by Congressional action. The covenant leaving it to each nation to determine what course should be pursued."

DOUBLE SAFEGUARDS.

"It would appear, therefore, that there is a double safeguard against our being drawn into a war by trade relations. First, for war could not be advised by the council without the American member on the council joining in that act. The second safeguard is the inconclusive until Congress acted favorably by declaring war."

"The United States has never engaged in a war which it could not

WINDS FAN FOREST FIRES.

MISSOULA (Mont.) July 30.—Strong winds in the Blackfoot and Selway national forests today increased the danger from forest fires in those districts, causing the flames to spread over thousands of acres of valuable timber, according to reports received at district forest service headquarters here.

The Couer d'Alene fires are increasing. The Cold Creek fire in the Lolo Forest is running toward Cedar Creek, fifteen miles southeast of St. Regis, Mont., and the town is considered in little danger from the flames today.

IMPROVED IN IDAHO.

SPOKANE (Wash.) July 30.—The forest fire situation in extreme Northern Idaho, in the Kootenai and Pend Oreille forests, was reported as improved today, although a small fire last night on the Idaho side of the divide. Cooler weather is assisting the fire fighters.

The big Black River fire in the Pend Oreille Forest is being kept under control. It was stated at once, the United States Forest Service announced here today.

The fire near Montana, in the Shasta Valley, and Shasta, is neither of these towns is in danger. The fire near Shasta, in the Shasta Forest, was reported as improved today, although a small fire last night on the Idaho side of the divide. Cooler weather is assisting the fire fighters.

ONLY DIRIGIBLES TO BE CALLED AIR SHIPS.

(BY A. P. NIGHT WIRE.)

WASHINGTON, July 30.—To settle linguistic difficulties, which have arisen with the development of aeronautics, the War Department has officially decided to use the word "airship" only to designate dirigible balloons and other lighter than air craft, and the word "aeroplane" for the heavier-than-air craft.

MINNEAPOLIS (N. Y.) July 30.—Although failing to establish a world's altitude record, a Curtiss biplane, piloted by a Curtiss aviator, flying a Curtiss biplane, set a new American mark today, when in an official flight, it reached a height of 20,700 feet, according to the figures of his barometer.

The altitude which Rohlf attained today is 400 feet less than that which he reached last Thursday in an official flight, when he smashed the American record of 21,300 feet, chalked up by Maj. E. W. Schroeder at Dayton, Ohio, September 1.

Rohlf found a temperature of 28 deg. below zero at an altitude of 20,000 feet, and a 100-mile wind. He said he was compelled to cut off the water in the pipe leading to his radiator to prevent his engine from freezing. Descending from a height of 25,000 feet, he found his gasoline and oxygen exhausted and volunteered the entire distance to the ground.

DENIES PEACE TERMS WERE GIVEN LENINE.

(BY CABLE AND ASSOCIATED PRESS.)

LONDON, July 30.—Assertions by Liberal papers that Sir Philip Kerr, secretary to Premier Lloyd George, had given a memorandum of peace proposals for the Bolshevik premier, Lenin, to William C. Bullitt, attached to the American peace delegation, were answered in the House of Commons today by Andrew Bonar Law, government leader, with a denial.

Mr. Bonar Law said Mr. Lloyd George did not know of Bullitt's mission to Russia until Bullitt returned and he denied that the British Premier had given Bullitt any such memorandum.

"This is not a problem of protecting the big nations, for the few that remain can well look after themselves. What we have done is to set up a score of little democracies, and if the American people could visualize their handiwork they would insist with the same determination that they did in 1917 that our government proceed."

These last would all come only by Congressional action. The covenant leaving it to each nation to determine what course should be pursued."

AGENT, NOT A MASTER.

"It is to be an agent, and not a master, an agent of the nations. Its ultimate fortune rests in the confidence which the peoples show in each other. It will fall if it cannot stimulate this, for the nations can destroy it by mutual distrust. On the other hand, they can make it a greater force, making by gaining and developing the sentiment that we, the united democracies of the world, are bent on preserving peace by a persevering regard for each other's national rights. If this chastened world is ready in spirit for its acceptance, we are to see a new day."

The league is a thing born of blood, the blood of men, who in great part did not hate each other."

THURSDAY MORNING,

Ask Wilson to Fight Living Cost.

INQUIRY IN SHOE PRICES IS URGED

Mersey-General Starts Many Investigations.

Ready for Suggestions to Aid in Reductions.

Don Sugar Exports is Asked in the House.

WASHINGTON, July 30.—The Federal Trade Commission would be directed to inquire into alleged price increases in the prices of shoes and the increased price of sugar, clothing and coffee, by a resolution introduced today by Representative Igoe, Democrat, Missouri.

Several investigations which may have an effect on the high cost of living are under way in the Department of Justice, Attorney-General said today.

Representative Igoe, Democrat, Missouri, said today that he declined, however, to indicate their nature.

"There is no doubt that the majority of people are more prosperous than ever before, farmers and wage earners especially," Mr. Palmer said.

"The man who has suffered from high prices has been the salaried man, the clerk. I wish we could do something to help him. I am open to suggestions."

Representatives of manufacturers of longberry and grape juice in Washington, Oregon and Pennsylvania renewed before the Senate Finance Committee today their arguments for repeal of the existing tax of 10 per cent. on the gross sales of their products.

The committee is considering the House bill repealing the tax to 2 cents a gallon.

Bohemian told the Senate committee that continued collection of the present tax would bankrupt the industry.

Exportation of sugar would be prohibited for two years under a bill introduced today by Representative Elliott, Republican, Indiana. He said wholesalers were giving as a reason for failing to fill orders from sugar retailers the necessity of filling export demand.

MILK MEN ASK ACQUITTAL.

SAN FRANCISCO, July 30.—An indictment of not guilty was asked when the prosecution closed its case in the trial here today of fourteen members of the Associated Milk Producers of San Francisco on charges of setting milk prices in excess of the amount intended by law.

The court took the motion under advisement.

Herbert C. Lunt, manager of an independent milk company and the last prosecution witness, testified that in January, 1917, the distributors found that the Producers' Association had gained control of 80 per cent. of the milk supply in the San Francisco Bay region.

The motion for the instructed verdict was denied when the court convened for the afternoon session.

Defense attorneys succeeded in having included in the record a letter bearing the name of Ralph P. Merritt, former United States Food Administrator for California, which advised the association to stand by the contract which formed the basis of the indictment.

Prosecution attorneys explained that Merritt never saw the alleged "free-off" clauses of the contract or he would not have written the letter.

CANADA TAKES WHEAT CROP.

OTTAWA, July 30.—The dominion government late today decided to buy and market the Canadian wheat crop of 1919. The wheat will be sold "at prevailing world prices" and the surplus proceeds will be divided among the original sellers of the wheat. Speculation and profiteering will be prohibited.

The main features of the plan as announced are:

1. A board to buy and market the crop of 1919.

2. A cash payment on account to be made to the farmer at the time he sells his wheat.

3. The wheat crop of Canada to be sold by the board at the prevailing world prices and the surplus proceeds to be distributed to the original sellers of the wheat in proportion to the quantity of wheat sold.

4. No speculation on exchanges or profiteering by handlers to be allowed in disposing of the crop to the consumer.

5. A direct and immediate cash sale by the farmers and speedy market for the crop along the usual channels of transport.

"The personnel of the board which will handle the crop will be made known soon, but will include a farmer, a dealer and a representative of the government."

"The board will be made known soon, but will include a farmer, a dealer and a representative of the government."

"The board will be made known soon, but will include a farmer, a dealer and a representative of the government."

HUN TRIBUNAL TO FIX WAR GUILT.

Will Pass on Responsibility but not Impose Punishment.

BERLIN, July 30.—A state tribunal is to inquire into and fix the responsibility for the war. It will be composed of the Supreme Court of the empire, whose president will be chairman. He will be assisted by the president of the military court and the judges of the Prussian, Bavarian and Hanau high courts. In addition ten assistant judges will be elected, five by the National Assembly, five by the committee of the German states.

Sittings will be public. The tribunal will be only empowered to pronounce upon the question of guilt; it will not impose punishment.

BULGARS CLAIM BIG TERRITORY.

Demand Dobrudja, Thrace and Macedonia.

Sofia Opinion is that Easy Terms may Come.

Polk on the Job has Hope of Senate Action.

PARIS, July 30.—The Bulgarian peace treaty was taken up again today by the supreme council of the Peace Conference. With the exception of the delineation of the boundaries of Bulgaria, the terms are now virtually complete.

The Bulgarian delegation this afternoon sent its first note to the conference. It took the form of a voluminous document claiming Macedonia, Dobrudja and Thrace as purely Bulgarian territory and insisting that they must be given to Bulgaria.

SOPIA (Bulgaria) Tuesday, July 29.—An atmosphere of uneasiness is discernible here with regard to the outcome of the mission in Paris of the Bulgarian peace delegates. Bulgaria's claims to the Dobrudja and her aspirations as to Macedonia are still the fore in discussion of the peace terms, and despite the hints of the possible territorial losses, which have caused concern, there appears to be a general hope that the questions at issue will be determined independently of Bulgaria's participation in the war against the Allies.

Prominent spokesmen here express strong desires to establish peace brought about through the visit of the mission to Paris, together with hope, as one of them said, that terms would be "something we can swallow."

The United States and Great Britain are alluded to as friendly, but the belief in this friendship is voiced with less certainty than previously.

FEAR SOVIET RULE.

LONDON, July 30 (via Montreal).—Reuters Agency today says it is reliably stated from Sofia that the internal situation in Bulgaria is most serious. There is a widespread movement to establish a soviet republic and many strikes have been begun, the advice adds.

Reports by way of Berlin declare Bolshevikism is spreading in Bulgaria. Several demonstrations have occurred in the larger towns. The soviet system is being demanded, it is added, and a general revolution is momentarily expected.

BOLK IS OPTIMISTIC.

PARIS, July 30.—Frank L. Polk, American Assistant Secretary of State, who arrived here yesterday, was quoted today by several newspapers as optimistic regarding the ratification of the German peace treaty by the United States Senate.

The terms to be presented to the Bulgarian delegation which is here awaiting the completion of the treaty, were said to be the principal objects of Mr. Polk's attention, but he added that he was understood not to have brought any statement regarding the ratification of the German peace treaty by the United States Senate.

The President's decision on other problems, especially the mandates for Turkey or Armenia, the Hungarian situation and the Russian question, the newspapers said, probably will be made known by Mr. Polk.

It is the impression in Peace Conference circles that the United States will not accept any mandates and that Great Britain will assume mandates for Constantinople and Turkey.

AWAIT SENATE ACTION.

PARIS, July 30.—A disposition to delay final action on ratification of the German peace treaty until the United States Senate acts on the Franco-American military treaty was indicated today by those in contact with the situation, according to the majority view of the Chamber of Deputies Peace Treaty Committee.

Baron Kurt von Lermer, chief of the German peace delegation, has sent a letter to the Peace Conference accepting the procedure proposed by the Allies for the transfer by Germany to Poland of the districts attributed to Poland by the peace treaty.

AUSTRIA UP AGAINST IT.

PARIS, July 30.—A dispatch from Vienna says that Dr. Karl Renner, in a letter to President Seitz of Germany, outlining his policy of acceptance of the Foreign Ministry, says that German Austria's struggle for future existence is proving much more difficult than even pessimists expected. Austria, he asserts, can only surrender itself trustfully to the League of Nations.

ASKS POLES TO RATIFY.

LONDON, July 29 (via Montreal).—The peace treaty with Germany has been presented to the Foreign Affairs Committee of the Polish Assembly by Premier Paderewski, with a recommendation for its ratification, a Warsaw dispatch announces. The Premier told the committee that Poland should be happy over the terms it contains.

SCHLESWIG SALES PROTESTED.

PARIS, July 30.—Premier Clemenceau, as president of the Peace Conference, sent a letter today to the German peace delegation protesting against Germany's selling national properties in Schleswig, which plebiscites are to be taken for decision by the population as to union with Denmark.

The note gave warning to the Germans that all the properties in question were considered as possible security for the payment of Germany's debts, and that the Peace Conference would hold Germany responsible for the proceeds of such sales.

VENIZELLOS AGAIN PLEADS.

PARIS, July 29.—Venizelos had a further opportunity this afternoon to appear before a supreme council and reiterated the protest of

The Birkel Co. has been fortunate in securing the services of Kalaokalani (Gabby), the great Hawaiian teacher of the Hawaiian Steel Guitar. He will instruct you in the art of playing this melodious instrument.

Greece against allowing Bulgaria to possess the Aegean Sea coast. In addition to the failure of the council to agree on the near-east phase of the Bulgarian treaty, there is also a difference of opinion as to what should be the Bulgarian frontier in the Dobrudja region. The present likelihood is that the conference may give Bulgaria and Rumania an opportunity to settle their line by direct negotiation with each other.

BELGIUM TO USE LOAN FOR AMERICAN BUYING.

KING ALBERT AND QUEEN ELIZABETH TO BE GUESTS AT WHITE HOUSE.

BRUSSELS, Tuesday, July 29.—The Foreign Affairs Committee of the Belgian Chamber of Deputies today passed favorably upon the question of the ratification of the peace treaty with Germany.

BERGER'S COMPARISON OF SPEECHES FAILURE.

WASHINGTON, July 30.—Attempts of Victor Berger to compare certain speeches of prominent Republicans criticizing the administration for its conduct of the war with his own utterances during the conflict drew a protest today from Representative Welby, Democrat, Ohio, a member of the special committee which is investigating Berger's right to a seat in the House of Representatives because of his conviction on disloyalty charges.

"The Republicans simply were criticizing a lack of respect," said Mr. Welby, "while you were trying with all your might to destroy the military efficiency of this government."

WASHINGTON, July 30.—King Albert and Queen Elizabeth of Belgium will be guests at the White House during their visit to Washington this fall, probably in October. Elaborate plans for their entertainment are being prepared by the State Department.

BERLIN, Tuesday, July 29.—Responsibility for the crown council's decision in 1917 that Belgian territory must be held, was placed upon the former German Emperor by Gen. Ludendorff in an economic way. The former Emperor, Gen. Ludendorff said, decided the question.

An outline of what military authorities were said to have considered.

Gen. Ludendorff's letter said that great headquarters merely sketched the military situation and stated what measures they believed necessary to protect Germany's western frontier in an economic way. The former Emperor, Gen. Ludendorff said, decided the question.

MOVE MADE TO END CAR STRIKE

Governor Confers with Heads of Roads and Union.

Big Stores Urge Customers to Order by Phone.

Chicago Traction Tie-up Complete on Second Day.

(BY A. P. NIGHT WIRE.)

CHICAGO, July 30.—A move to end the street car strike that has paralyzed both surface and elevated cars for two days, was made today in the form of a conference participated in by Gov. Lowden, L. A. Busby, president of the surface lines; Britten I. Budd, president of the elevated road, and William D. Mahon, international president of the street car men's union.

The conference agreed to submit to the union men for a referendum Friday night the proposition which they rejected at a meeting Monday night when they voted to strike immediately.

At the Monday night meeting both the heads of the companies and the union officials have charged railroad men with dominating and preventing the ratification of the proposition which had been formulated in conference of union leaders, street railway heads and members of the Public Utilities Commission offered an eight-hour day, time and one-half for overtime and a maximum wage of \$5 cents an hour for surface car men and \$7 cents for elevated men. There are 15,000 carmen and 1000 conductors attending the Monday night meeting.

STRIKE TIE-UP COMPLETE.

Meanwhile the tie-up on this the second day of the strike, was as complete as yesterday. Officials of the companies said no effort would be made to run cars with the aid of non-union men.

Notices were issued calling on automobile drivers to aid pedestrians by conveying them in the direction in which the driver was bound. The "help Chicago" notice brought a gratifying response, officials said.

All the big mercantile establishments gave notice through the public prints of increased telephone facilities and urged their customers to do their shopping by telephone.

Every railroad entering the city brought into use its entire passenger equipment and ran additional trains to accommodate the suburban population.

BLAME RADICALS FOR STRIKE.

Mahon, upon his arrival in Chicago today took personal charge of the strike and promised to do everything in his power to settle the dispute without unnecessary delay.

Mahon's first action was to send a letter to the officials and members of the Executive Committee of the local unions, calling a conference at 2 o'clock this afternoon. He wanted to learn from the local leaders every detail of the situation and the reasons which resulted in the calling of the strike. He wanted to discuss the situation until after he had obtained this information.

CHICAGO, July 30.—A score of striking cigar clerks today attacked two employees in a United Cigar store, beat them severely and escaped before the police arrived in response to a riot call.

STRIKING IN ST. MILL.

(BY A. P. NIGHT WIRE.)

CORUN, ALEN (Ida.) July 30.—A strike of members of the Timber Workers' Union in three large saw mills here today failed to force the closing of the factories which were operating with reduced crews.

The union is demanding an increase in wages.

OBSELETE SUBMARINE SINKS; THREE DROWN

WAS EXPERIMENTING WITH DEPTH BOMBS; HULL WILL BE SALVAGED.

(BY A. P. DAY WIRE.)

NEW LONDON (Cl.) July 30.—The United States submarine G-3, which is listed as an obsolete unit and used for experimental work, sank with open hatches in Long Island Sound, today, and three of its crew of eight were drowned. Others were rescued by men from the United States Coast Guard cutter Albatross, which was accompanying the submarine.

The G-3 was engaged in experiments with depth bombs and was apparently without warning.

The hull has been located and salvage operations will follow.

The submarines N-3 and N-5, with divers, were sent to the spot where the G-3 sank and early this morning one body had been recovered.

The submarine was in charge of Gunner B. W. Morrow.

WASHINGTON, July 30.—The

naval patrol boat May, a converted yacht, has been wrecked off Cape Sable, South Domingo. A feared dispatch to the Navy Department today said the crew of seven men was rescued by the lighthouse tender Lilac and the marine chaser 136, which responded to distress signals from the May.

Oakland on Agricultural Board

(BY A. P. NIGHT WIRE.)

SACRAMENTO, July 30.—The appointment of G. H. Daniels of Oakland, to succeed Theodore G. term expired, as a director of the State Board of Agriculture, was announced today by the office of Stephens. On the State Board of Agriculture, Dr. H. V. Medical Examiner, Dr. C. L. Brown of Glenn, and Dr. C. L. C. Loe, term expired, by appointment made today.

Charge Water Supply Inadequate

(BY A. P. NIGHT WIRE.)

SAN FRANCISCO, July 30.—Alleged failure of the Sonoma Water Light and Power Company to deliver an adequate supply of water to its consumers, was the subject of investigation today by the Railroad Commission, on the complaint of Sonoma, El Yacoma and Vista.

CHIROPRACTIC

(Pronounced KI-RO-PRAC-TIC)

WHAT IT IS; WHAT IT DOES; HOW IT DOES IT

A brief examination of the science which is saving the lives and relieving the sufferings of thousands. A Chiropractic Adjustment is a thrust delivered to the spine for the purpose of adjusting displaced vertebrae into normal position, thereby freeing the nerves that are pressed upon. A perfect system of nerves means perfect health. All nerves originate in the brain, converging at its base, forming the Spinal Cord. The Cord passes downward through the Canal formed by the 24 vertebrae or Spine. From the Cord thirty-one pairs of Nerve Trunks are given off, between the vertebrae. Each of these nerve trunks divide into about two million branches, which have their endings in the Skin, Muscles and the various organs all over the body. Every part of your body the size of a pin point has its nerve supply. Can you imagine the effect if one of the thirty-one Main Nerve Trunks was pressed upon at the opening where it left the Spine? The effect would be disease at the ending of that nerve or its branches. Suppose that nerve ended at the stomach, then Stomach Trouble is the effect. The same would apply to any other organ of the body, the cause of the trouble being the pressure at the Spine. Chiropractic removes this pressure and Nature sends her forces over the Nerves and the affected part becomes well.

Recovery

The rapidity with which recovery often occurs as a result of expert Chiropractic Adjustments seems to those without experience almost incredible. The time is coming when everybody will have their Spine Adjusted, thereby adding years to their lives and life to their years. We assure you there are no embarrassing examinations, as our examinations are all made from the Spine. Don't say it can't be done—that's what people said about the Telephone, Wireless Telegraphy, Airship, etc. Investigate. If you will call at our office we will be glad to make an analysis of your Spine, stating conditions as we find them, and give you Honest, Unbiased and Unprejudiced opinion as to the results you might expect from Chiropractic Adjustments. There will be No Charge for this service and we invite you to come.

CHIROPRACTIC CHART

Showing how Subluxated Vertebrae cause Pressure on Nerves and Obstruct the Transmission of Mental Impulses from the Brain to the Organs of the Body. Interference with the Transmission of these Life Currents causes Disease in the Organs to which the Nerves under Pressure Lead. It is Paramount that Spinal Subluxations be Adjusted before Disease can be Eliminated. Doctors of Chiropractic make a Specialty of this work, and by their Valuable Service have ingratiated themselves in the Hearts of Thousands who had been Sufferers from Almost every form of Disease. Such a Science is Worthy of the Consideration and the Confidence of Thinking People Everywhere.

OIL OPERATORS HALT MEDIATION

Refuse to Discuss Anything Except Wages.

Will Withdraw Permanently if Issues Join.

Claim Closed Shop has No Part in Parley.

(BY A. P. NIGHT WIRE.)

SAN FRANCISCO, July 30.—Refusal of the operators to discuss hours of work and a closed shop has resulted in a suspension of the hearing of the President's mediation commission here into wage and other demands made by oil field employees in Kern, Fresno, Los Angeles and Orange counties, representatives of the operators announced here today.

The demand that only wages be discussed was taken under advisement by the commission, which announced that it expected to answer the demand at a session in Santa Barbara on Thursday, August 1.

"If the commission insists that hours of work and the closed shop be made issues in this investigation, we will refuse to become a party to their deliberations," the operators announced. They said they were willing to discuss demands of the men that the basic wage be raised from \$4 to \$5.

The presence of a delegation of the oil field workers in the city was announced by Col. J. L. Spangler of Bellefonte, Pa., the chairman of the commission. Col. Spangler declined to announce the purpose of their visit and the operators said that no conferences with this delegation had been planned.

THINKS STATE SHOULD KEEP OUT OF STRIKE.

(BY CABLE AND ASSOCIATED PRESS.)

LONDON, July 30.—(via Montreal.) The idea of employing the forces of the state to interfere in a dispute between capital and labor in order to advance the interests of the employers or any particular group of workmen, in his view, is an odious one, Winston Churchill, the Minister of War, declared in the House of Commons last night in replying to a labor speech in which reference was made to the use of troops in strike disputes.

The old idea of a free country, he continued, was that the people should have the right to fight out their disputes within reasonable limits and that the government was employed in questions where private interests were the moving impulse. The position which the government was taking up, however, was, he declared, that where the state as a whole is challenged and where the life and the welfare of the community as a whole are endangered, then the state must use all the resources at its disposal to fight without flinching, to the bitter end.

STATE BIBLE COLLEGE PROMISED \$200,000.

(BY A. P. NIGHT WIRE.)

SANTA CRUZ, July 30.—Delegates attending the State convention of the Christian church in progress here, organized today by electing the Rev. E. T. Nesbitt of Visalia, as chairman of their organization. The Rev. Hugh Brunk, also of Visalia, was named secretary.

The Rev. J. J. Evans of San Jose, treasurer, announced that a member of the convention who did not wish his identity disclosed had pledged \$200,000 toward a fund for the California Bible College. This sum added to other pledges, he said, would create an endowment of \$400,000.

A report was submitted in which it was recorded that the attendance in State churches had increased 1208 during the past year.

LEASE OF MINERAL LANDS IS UP AGAIN.

(BY A. P. DAY WIRE.)

WASHINGTON, July 30.—Consideration of a measure designed to promote the production of coal, oil, gas, phosphate and sodium upon government-owned lands, was begun today by the Senate Public Lands Committee.

The bill, drawn by Senator Smoot, Republican of Utah, is similar to that which failed in the closing hours of the last session, except that provisions for sale of coal lands have been eliminated.

Chairman Smoot announced that the committee would meet daily until it had disposed of the bill.

MERCHANT MARINE NET PROFIT IS DOUBTFUL.

(BY A. P. DAY WIRE.)

WASHINGTON, July 30.—Labor troubles in European and South American ports and the breakdown of international transportation in those countries are handicapping the American merchant marine to such an extent that it is doubtful if net profits can be earned at this time, the House Merchant Marine Committee was told today by John E. Cushing, acting director of the Shipping Board's bureau of operations.

Before the strike difficulties, a net profit had been earned by the merchant marine, Cushing said, but he explained that the operation of ships as commercial cargo carriers began only last May and delay in obtaining cost records from abroad had delayed a balance of accounts.

POLES IN GALICIA DISCOURAGE UKRAINE.

(BY CABLE—EXCLUSIVE DISPATCH.)

VIENNA, July 30.—(via Paris, July 29.) The Ukrainians are so thoroughly discouraged over the Entente permitting, as they say, the Poles to overrun East Galicia and hold it, that the whole Ukrainian army hitherto fighting the Bolsheviks will join them.

The Ukrainians have 75,000 to 80,000 under arms, they say.

MIDWEST STATES ASKS ROAD APPROPRIATION.

(BY A. P. NIGHT WIRE.)

KANSAS CITY, July 30.—Representatives of the State Highway departments of Kansas, Nebraska, Texas, Iowa and Oklahoma, who met here today, forwarded to Congress a memorial asking that \$400,000,000 additional Federal aid for State roads be appropriated immediately, allowing \$100,000,000 each year for four years, beginning in 1920.

Congress was asked further to designate that the States under such an appropriation may have until July 1, 1925, to use Federal funds before it reverts back to the government.

Highway Department officials pointed out that in many States with present Federal funds already used up, plans for millions of dollars worth of State roads to be built with Federal aid must await further action of Congress.

MONTANA RATIFIES SUFFRAGE.

HELENA (Mont.) July 30.—The Montana State Senate today ratified the Federal suffrage amendment to the Constitution, thus completing the action on the measure in the Assembly, the lower branch having voted to ratify yesterday. The vote in the Senate was 23 to 1, with four absent. The action of the House yesterday was unanimous.

WAR GUILT NOW PUT ON HOLLWEG

Prince Lichnowsky Says do not Blame ex-Kaiser.

Declares Military Party Forced Wilhelm's Hand.

Greatest Blunder was Letting United States Come In.

BY RICHARD HENRY LITTLE.

(BY CABLE-REUTERS DISPATCH.)

RATIBOR (Upper Silesia), July 30.—(Delayed.) Prince Lichnowsky, German Ambassador to England at the start of the war, is not one of the royal personages who belong to the great army of unemployed. The prince is one of the busiest men in Europe, having two great interests, one to make as much money as possible, because he is now almost worth it in weight in gold, while at the same time he is fighting valiantly to keep his ancestral home out of the hands of the encroaching Czech-Slovaks.

Prince Lichnowsky's estate is near Ratibor, in the southern part of Upper Silesia, a slice of territory which the Entente presented to the Czech-Slovaks, while the remainder of Upper Silesia was given the vote as to whether it would remain German or go to the Poles. The prince speaks English, English, and says with great vehemence that while he does not want to kick, he objects most decidedly to being sold on the hoof to the Czech-Slovaks.

The strip of country in which the prince's estate is located was not given a plebiscite, as was the rest of Upper Silesia, and that is what makes the prince mad. He declares the people in the part of Upper Silesia are just as much human beings as in the rest of the province, and that while he likes to rattle the skeleton, he rises up to remark that under President Wilson's fourteen points the people of the Ratibor region should have and are entitled to the divine right of self-determination.

"Out of a population of 50,000 in the country which the Entente has kindly presented on a silver platter to the Czech-Slovaks," said the prince to me, when I called on him at his castle at Kuchelna. "40,000 have the right of voting. Or that 40,000 about 2,000 have signed a petition, demanding that the promise made by President Wilson be fulfilled and that they be given a plebiscite, so they can vote to remain in Germany."

"I succeeded with great difficulty in getting the Prince's mind off the Czech-Slovaks and diverted to the question as to whether or not the former Kaiser should be tried."

"No," said the Prince, decidedly. "The Kaiser should not be placed on trial. It would be outrageous. I know the Kaiser was utterly opposed to the war. He was forced into the war by the military and the other people around him. The Chancellor was to blame, but not the Kaiser."

"I asked if the Prince thought Count von Bethmann-Hollweg should be tried and he said that the Prince not only thought he should be, but was rather enthusiastic about it. He said that the Kaiser-Hollweg massed up things something awful as Chancellor and blundered the country into the war. The Prince not only wants the former Chancellor tried, but I am certain he would like to be on the jury. He had 'guilty' written on his ballot already."

"At the beginning of the war through the manipulation of the war party," said the Prince, "not one man in a thousand in Germany but firmly believed that the fatherland was being attacked. I was denounced and fairly mobbed because I told the people Germany was doing the attacking. No one would believe me but they are finding out the truth now. Blunder followed blunder, and finally the greatest blunder of all was made and the United States brought into the war. From that minute Germany was beaten."

Prince Lichnowsky dropped the affairs of state to rush me around his farm, where a thousand persons employed work night and day making flax which is hustled to the mills near at hand. There it is made into linen, which is sold in German shops for 55 marks per yard.

There is nothing doing in the flax business in Germany right now, but as captain of the flax industry Prince Lichnowsky is making more money than the government minister, but flax is for making underwear and clothes and as Germany wears underwear than flax, the Prince naturally wants to stay in Germany.

Copper Men Strike in Nevada.

(BY A. P. DAY WIRE.)

ELY (Nev.), July 30.—Employees of the mechanical and operating departments of the Consolidated Copper Company went on strike yesterday when the company refused a demand for a wage increase of \$1 a day and offered a compromise of 75 cents.

ALL UNITE ON H. M. ROBINSON.

Senate Committee Unanimous on Angeleno for Place on Ship Board.

(EXCLUSIVE DISPATCH.)

WASHINGTON, July 30.—Henry M. Robinson of Los Angeles, who was nominated a member of the Shipping Board by President Wilson, was today unanimously agreed to by the Committee on Merchant Marine. Of three nominations before the committee, his was the only one against which no protest was lodged. The committee agreed to confirm John Barton Payne for membership on the board, but held the other nomination for future action.

SENATE MAY MODIFY THE WAR REVENUE ACT.

ACTION ON SODA WATER AND FRUIT JUICE BILLS DEFERRED TO SEPTEMBER.

(BY A. P. NIGHT WIRE.)

WASHINGTON, July 30.—Formulation of a definite policy as to legislation modifying various provisions of the War Revenue Act of 1918, against which protests have been received from various parts of the country, will be discussed at a meeting tomorrow of the Senate Finance Committee. The call for the meeting was issued by Chairman Penrose late today following hearings on House bills repealing the soda-water tax and substituting a tax of 3 cents a gallon on fruit-juice beverages for the present 10 per cent gross sales tax.

Proposals also have been made in the House looking to the repeal of the luxury taxes as well as certain of the excise taxes, especially those relating to imposts on candy, sporting goods and furs. Senate leaders, it is understood, feel that the question as to how far Congress is to go in this matter should be determined once.

Owing to the House recess Saturday for more than a month, members of the Senate committee said tonight the committee would take no final action on the soda water and fruit-juice tax bills before September at least.

The committee tomorrow is expected to discuss also the question of tariff legislation to some extent.

FORD'S LITERACY IS TRIAL STORM CENTER.

(BY A. P. NIGHT WIRE.)

MT. CLEMENS (Mich.), July 30.—There are two leading schools of anarchy, the individualist and the communist, according to Henry Ford's million-dollar libel suit against H. B. Clegg, Daily Tribune. Prof. Dunning, who appeared yesterday as a witness for the plaintiff, was cross-examined today by Elliott F. Stevenson, senior counsel for the defendant.

Prof. Dunning remarked that there were many anarchists who could not read.

"Neither can Mr. Ford," said Attorney Stevenson.

"Oh, no, Mr. Stevenson, that is unfair," said Alfred Lucking, senior counsel for Mr. Ford. At that point Attorney Alfred J. Murphy, also for Mr. Ford, was on his feet and everybody was talking at once.

"Your honor, we object," said Mr. Murphy. "Mr. Ford was suffering from hay fever and couldn't read, didn't he?" Mr. Stevenson's voice rose above the others.

"We insist that it be stricken out," persisted Mr. Murphy. Judge Tucker ended the confusion by instructing counsel for Mr. Ford to withdraw his comment for final argument.

Mr. Stevenson adduced much to the effect that the committee would improve the lot of the masses.

"Clegg is trying to make out that this Tribune was highly complimentary in calling Mr. Ford an anarchist," commented Attorney Lucking.

"We are talking about the United States," "Oh, lots of them."

"There must be a lot of them in Detroit, although I have never stepped there."

"You meet them in New York?" "Loads of them."

"Also in Columbia University?" "A mass of them."

"A lot of men were discharged from Columbia University for disloyalty."

"They are not there now."

DE VALERA ADDRESSES MONTANA LEGISLATURE.

(BY A. P. NIGHT WIRE.)

HELENA (Mont.), July 30.—Eamon de Valera, president of the provisional Irish republic, arrived in Helena today. He met Gov. Stewart and addressed a joint assembly of the State Legislature.

"Since America won her independence from England, there have been five revolutions in Ireland, and there will be another unless it is won by peaceful means," Mr. de Valera declared.

Maj.-Gen. Johnston Made Colonel.

(BY A. P. NIGHT WIRE.)

TACOMA (Wash.), July 30.—Maj.-Gen. William H. Johnston, commander of Camp Lewis and former commander of the Ninety-first Division overseas, returns to his regular army rank of colonel August 1, according to orders received here today.

TROOPS GUARD CHICAGO.

Danger Centers Under Vigilance of State Soldiers and Tension is Relieved.

(Continued from First Page.)

specific orders for the disposal of the various regiments. TO HEART OF BLACK BELT. The first troops to move were six companies of the First Regiment, Illinois reserve militia, who were ordered from the Seventh Regiment Armory to the Stanton-avenue riot headquarters in the heart of the black belt.

Adj.-Gen. Dickson and Col. James Romaine left the City Hall for the Stanton-avenue station after directing the troops to move. Companies of the First Regiment were marched to Sixty-third street and Normal avenue and Sixty-third street and Racine avenue, where a considerable colony of negroes live and where there was an incipient riot Tuesday night.

The Ninth and Tenth National Guard regiments are quartered at the stockyards and are close to the western end of the black belt. In West Sixty-third street a mob of white youths and police from Englewood station were unable to disperse the crowd. Several negro families carrying bundles of belongings fled from their homes.

The State troops established a barred zone about three miles square embracing most of the colored residential district on the south side. In this zone they searched every person whom they met for weapons. No one could pass in or out without military permission. The district extended roughly from Twenty-second street to Fifty-fifth street, north and south, and from Michigan boulevard to Wentworth avenue, east and west.

This happened when riots in the colored district had been kept subsided, but when there was an alarming spread of disturbances outside. New York Central railroad officials reported all their trains held up.

Adj.-Gen. Frank R. Dickson.

FUNERALS HELD UP. No funerals for the negro victims of the riot have been held today. Negro undertakers are afraid to go to the City Hall to obtain burial permits, city officials said today.

The authorities believed negro funerals would serve to aggravate the situation. In contrast to disturbances outside policemen an hour after dark reported the heart of the black belt as unusually quiet. It was here that much of the rioting centered on previous nights.

Three negroes driving an automobile tonight fled promiscuously in the Twenty-fourth street. Thomas Posen, white, was wounded in the side by one of the bullets as he was reading a newspaper in a barber shop.

shop, August Vieto, white, 9 years old, also was wounded when the negroes fired at a group of children playing in the street.

Posen and the child were taken to a hospital.

THIRTY IN DEATH LIST. Tonight the official death list for four days showed thirty, of whom seventeen were negroes, two unidentified, three refused to allow whites to enter the zone. A white insurance collector was shot by a negro in the district this afternoon and died in a hospital.

Att.-Gen. Brundage, who took charge of the prosecution following the riot, declared punishment of the guilty here was certain. With all available policemen on duty in the black belt and surrounding territory, even traffic policemen, whose places were taken by volunteer citizens, the negro district was comparatively free from violence today. Police, wherever possible, refused to allow whites to enter the zone. A white insurance collector was shot by a negro in the district this afternoon and died in a hospital.

NEGROES ARE PURSUED. In outside districts, and even downtown, whites shot, beat, or pursued negroes at frequent intervals. The numbers involved, however, were in most cases small. A second attempt by rioting whites to burn a negro home was successful today. None of the several families of negroes who lived in the building were injured.

When the inquest which is to determine the responsibility for the rioting convenes it will be in a court room under heavy guard. All witnesses will be searched for weapons. The coroner said today, "The slightest case might lead to trouble," said the coroner. The jury has been impaneled and the coroner reported that there had been no noticeable exodus of negroes from the city.

Reports that the 75,000 southern negroes who came to Chicago to get the high war wages had begun to drift south again were scouted by the city.

ANOTHER VICTIM DIES. One more victim was added to the toll of deaths caused by injuries received in the race riots. Berard Odman, white, 21 years old, an employee of the Chicago Telephone Company, was shot in the abdomen in the field for \$110,000.00. The Munger-Verschell interests announced on Monday the sale of a 5-acre lease near us for \$550,000.00. Many more such sales are expected.

A few hundred feet west of us the great GRAY GANDER GUSHER has just come in with a reported production of 3000 barrels daily. It is reported that the 5-acre tract on which this Gray Gander Gusher is located has just been sold for \$800,000.00. This gives you some idea—some conception—of the ENORMOUS VALUE of our 5-acre lease.

Our lease is 251 feet wide and 866 feet long. This gives us ample room to drill from 5 to 7 wells thereon. We confidently believe—we feel absolutely certain—that every well drilled on this great property will come in at from 2500 barrels to 3000 barrels daily production.

ENORMOUS PROFITS FROM THIS PROPERTY. Wait a minute—get out your pencil—let's do a little figuring—what will our daily earnings be when we have completed five big 3000 barrel producers on this tract? Bear in mind that this oil is worth \$2.50 per barrel. Also, what will this one property be worth? Now that you have figured for yourself, the enormous possible earnings and the tremendous value of this lease—you understand WHY we have advised you to immediately purchase all the stock you can afford while you can get it at our SPECIAL OPENING PRICE of 5 cents per share. You are now able to see WHY this stock is certain to soon advance tremendously in value.

FIRST WELL ALREADY STARTED. We have already started development operations on this lease. Our derrick is completed, we have purchased one 250-barrel tank and two large 1600-barrel tanks; we have laid 3500 feet of pipe line and we are arranging to move in our drilling machinery immediately. The actual drilling of our first well will be under way before the end of the week. It is published, and we should complete it in less than thirty days.

OUR PROPERTY NO. 2. We own 10 acres in Block 45 of the Northwest Burk Burnett Extension. This property is located approximately 350 feet west of Main Street. Big Three well—400 feet south of the Main Street well—500 feet southwest of the Texas Girl well—300 feet west of the Forty-four Oil Company well—700 feet north of the Cashion Oil Company well—450 feet northwest of the Record Oil Company well—950 feet northeast of the Clover Leaf Oil Company well—and many other wells which are rapidly starting.

We believe the value of this 10 acres will more than double in the next few months. It is a great property and we feel sure that since we acquired it. You will notice that this property, too, is surrounded with wells—it is a proven property and we feel sure of getting a good producer in every well we drill here. There are locations for 10 wells on this splendid property. You can hardly overestimate the value of this splendid 10-acre lease when it is developed.

OUR PROPERTIES NO. 3 AND 4. We own 20 acres in Section 29 and 60 acres in Section 16. These two properties are across the river in Tillman County, Oklahoma and are right in line with the big Burk-Wagoner and the Texas-Chief Gushers. The big companies and the men who have made the Burk Burnett and the Northwest Burk Burnett Pools famous have secured leases surrounding our 20-acre and 60-acre leases and are now spending enormous sums of money there in drilling operations. Several wells are now drilling around these properties. Vast development operations are now under way here and it is expected that there will soon be as much activity here as there is now around our 5-acre lease in Block 89.

BIG POOL EXTENDS ACROSS THE RIVER. Many experienced oil men and trained geologists agree that this great Northwest Burk Burnett Pool undoubtedly crosses the Red River into Tillman County, Oklahoma, just as the oil fields cross the Cimarron River in Oklahoma, with many big wells drilled in the bed of the river. You will remember that the Red River is the dividing line between the southern side of the river and Oklahoma on the north side. Indeed, several wells are now drilling in the Red River and it is a most interesting sight to see this drilling work carried on in the center of the river itself.

The big Texas-Chief Gusher is located only a few hundred feet south of the river and there seems to be no doubt that the same structure on which this Texas-Chief Gusher was drilled, extends across the river and into Tillman County, Oklahoma.

We are going to rush the development of our 5-acre tract in Block 89 with all possible speed. As soon as we complete the development of this tract, we will promptly start drilling operations on our 10-acre tract in Block 45. By that time we believe our properties No. 3 and No. 4 will be surrounded with big producing wells and we will then proceed with the development of those properties.

MORE THAN 50 PRODUCING WELLS. The Invader Company of Oklahoma was organized in Muskogee, Oklahoma, about two years ago. It began business with a paid-up capital of \$60,000 on one property with four producing wells. The growth of this company has been phenomenal. It now has a capital of \$2,000,000 and has more than 50 producing wells.

LEASERS BRING TREMENDOUS PRICES. We have refused an offer of \$40,000.00 per acre for this 5-acre lease. The Sinclair Company last week purchased a lease immediately adjoining our property on the east, for which they paid \$400,000.00.

The Livingston Company announce the purchase of a 10-acre lease

shop, August Vieto, white, 9 years old, also was wounded when the negroes fired at a group of children playing in the street.

Posen and the child were taken to a hospital.

THIRTY IN DEATH LIST.

Tonight the official death list for four days showed thirty, of whom seventeen were negroes, two unidentified, three refused to allow whites to enter the zone. A white insurance collector was shot by a negro in the district this afternoon and died in a hospital.

NEGROES IN OHIO SEEK PROTECTION.

(BY A. P. NIGHT WIRE.)

DAYTON (O.), July 30.—Representatives of a negro welfare league appealed to the City Commission today for protection to the negro race in Dayton. Recent race disturbances have occurred at two parks, in which several hundred persons took part. Prompt action is being taken by the city.

BLOOMINGTON (Ill.) July 30.—Twenty negroes attacked Mrs. Kate Cecil, white, at her home in Normal this morning after she had chased some negro children from her yard.

The negroes are said to have become incensed because she called the children "niggers." Police and white citizens joined and succeeded in quelling the disturbance in short order.

A fight with negroes Tuesday night, dying this morning. A white woman shot a negro in the side on South Main street this afternoon. She escaped uninjured.

Local Negroes Oppose Race Riots. A committee composed of some of the leading negroes of the city was called together yesterday at the Ninth street branch of the Y. M. C. A. by the colored Ministers' Alliance to devise means by which such race rioting as has taken place in the East may be averted in this city. Among those present were Reverends J. C. Anderson, H. D. Frowd, A. P. Shaw, H. B. Bess, P. Gregg, E. E. Lightner, R. N. Holt, J. E. McCormick, J. W. Price, W. C. Davis, and Messrs. J. B. Bass, S. P. Johnson, J. H. Shackleford, T. A. Greene.

Every Tick a Dollar. Literally every store at the head of Delaware families spend more than a dollar for canned goods and preserves; \$64,838 every minute; \$34,838 every day. This does not take into account the thousands of shelves of things that housewives "put up" for themselves. To influence a audience to buy a particular brand of goods is about its merits in the verting columns of

The Delineator. The Magazine in One Million Homes

PAID 32 CASH DIVIDENDS. The Invader Company of Oklahoma, though only two years old, has already paid to its stockholders 32 cash dividends out of the Company's earnings. Besides paying these dividends, the Company has grown rapidly and today stands on a solid foundation—a young GIANT towering far above many of the older companies.

INVADER OIL AND REFINING COMPANY OF TEXAS. This Company was recently organized by the same men who are at the head of and have made such a tremendous success of the Invader Company of Oklahoma. The success of the new company is therefore assured. Our capital is only \$300,000. We own more than 20,000 acres of carefully selected leases in the Texas fields. One million Dollars was recently refused for a half interest in our oil fields. We own our own drilling machinery, tools, motor trucks, etc.; we have our own field force. WE ARE ALREADY DRILLING THREE WELLS HERE NOW. We are working day and night. We will drill nine more wells just as fast as possible—this is a real oil Company.

5c a Share—SPECIAL OPENING PRICE—5c a Share. You can buy this stock now at our SPECIAL OPENING PRICE of 5 cents per share.

20,000 shares cost \$1000 cash; or \$200 cash and \$200 per month. 10,000 shares cost \$500 cash; or \$100 cash and \$100 per month. 5,000 shares cost \$250 cash; or \$50 cash and \$50 per month. 2,000 shares cost \$100 cash; or \$20 cash and \$20 per month. 1,000 shares cost \$50 cash; or \$10 cash and \$10 per month. 500 shares cost \$25 cash; or \$5 cash and \$5 per month.

No Subscription Accepted for Less Than 500 Shares. Get all the facts—send today for our large folder containing maps of the Texas oil fields, numerous pictures and full information. ALL FREE. Don't delay—write today!

WARNING—IMPORTANT NOTICE! We reserve the right to advance the price of this stock WITHOUT NOTICE, and this will soon be done. We can give you no guarantee as to how long you will be able to secure this stock at the present price. We are drilling several wells now—we are drilling in the greatest Gusher Territory in the world. We do not know how soon one of these wells will reach the main and send oil spouting over the top of our derrick in a mighty stream. When that time comes—and each day it draws nearer and closer—it will be too late—then YOUR Opportunity to purchase this stock at 5 cents per share will be GONE—AND GONE FOREVER!

BUY YOUR SHARES NOW! Use the application blank—Coupon No. 1—below. Fill in the number of shares you want and mail it to us with your remittance. Should the price advance before your application reaches us, we will promptly return your remittance to you. To avoid disappointment—send your application today.

THURSDAY MORNING.

IRISH REPUBLIC
IS IMPOSSIBLE.Sinn Fein is a Menace to
the Island.Home Rule on Dominion Plan
Best Solution.Younger Generation Growing
up Republicans.

BY JOHN S. STEELE.

DUBLIN, July 30.—I have just had an interview with Ian MacPherson, Chief Secretary for Ireland and chief executive of the British government in Ireland, at the Chief Secretary's lodge, beautifully situated in the famous Phoenix Park. Outside, as we walked, we heard the song of harpists, as the Gordon Highlanders, part of the "British Army of Occupation," drilled on one of the wide lawns.

These soldiers are new recruits, and mostly boys, but they seemed to enjoy their soldiering as a holiday, and their drill was equal to that of veterans.

The chief impression left on my mind by the interview with Mr. MacPherson is that he is earnestly anxious to find some solution of the Irish government problem, but is unable to work out a scheme that will give reasonable satisfaction to all parties in Ireland.

On one side the irreconcilable Sinn Fein Republicans are demanding secession from the British empire, on the other the intransigent Ulsterites are demanding to be left alone.

SORT OF HOME RULE NEEDED.
"We are exploring every possible solution," said Mr. MacPherson, "and are satisfied that the solution arrived at must be some sort of home rule, but there must be no coercion in any part of the country." Referring to my suggestion that "Great Britain now is coercing the larger part of the country," Mr. MacPherson said:

"Oh, no, simply enforcing the law of the land. The whole Ulster position is that they demand the privilege of wearing the Union Jack in the United Kingdom, and even in the home rule bill the right of six counties to remain out of the Irish Parliament is recognized. That pledge must be repeated.

"One thing we won't and can't tolerate is an independent Irish republic. That is unthinkable. I fear dominion home rule, if granted, will be disregarded only as a stepping stone to separation. The younger generation is growing up rebels. Children in the schools are being educated to hate Great Britain and being taught to demand a republicanism pure and simple.

"Personally, I hoped for a possibility of some form of home rule with an option reserved to each county to vote itself out. The difficulty here is that, for instance, County Clare, which is purely republican, would vote itself out, while a county like Antrim, overwhelmingly Ulsterite, also would vote itself out.

FOR COUNTY OPTION.

"I believe myself that whatever scheme is decided on, it must be extremely generous. There is a possible solution in federation with the United Kingdom, and a steady drift of opinion in that direction is noticeable in England, Scotland and Wales. The solution might be to have two units of the United Kingdom federation in Ireland, but I don't think it possible to have two federal units of an Irish dominion with a supreme Parliament in Dublin. Ulster never would accept that."

On the policy of a heavy sentence for political offenses, Mr. MacPherson pointed out that in such cases the prisoners are convicted of acts criminal in themselves, such as possessing dangerous weapons or threats of violence.

In reply to other questions he said there were no relations of any kind, official or personal, with the Sinn Fein "government."

"If such were the case," he said, "it would resign at once. Our only relations with them are through the police courts."

I believe the British government here realizes the difficulty of governing an unwilling country, and is sincerely anxious to find a solution which will satisfy the Irish people and at the same time safeguard the security of the British empire. The task, however, is much more difficult by the two parties of extremists—Sinn Fein and Ulster. The leaders of neither are willing to concede the slightest point in favor of peace. The leaders of every other section are willing for a common-sense compromise, and I see many indications that the rank and file of Sinn Feiners at any rate are beginning to see reason. I have not yet visited Ulster, but if the rank and file there also are in a reasonable mood, the problem ought not to be insoluble.

STORAGE OF BUTTER
AND EGGS INCREASED.

(BY A. F. DAY WIRE)
WASHINGTON, July 30.—Large increases in the amounts of butter and eggs in cold storage this year over totals a year ago were reported yesterday by the Agricultural Department. There were 302 storages which reported in 1919 holding stocks of 68,202,000 pounds of butter, while the same storages July 15 this year held 155,252,000 pounds. The 372 storages reporting eggs July 15 this year held 7,670,000 cases against 6,222,000 cases a year ago.

PARIS, July 29.—The first meeting of the economic council instituted by Mr. Clemenceau to reduce the cost of living was held today. It was decided to increase the number of depots for the sale of food bought by the government at the same rates as for the army and to submit a decree of the Cabinet Thursday establishing normal prices of foodstuffs.

Ocean Traveling.
Ocean traveling is being made safer than it used to be, but there appears to be little promise of its becoming any less unsettling to the stomach.—Portland (Me.) Eastern Argus.

Bullock's August Clearance

Friday!

—August First

Tomorrow---the First Day---of Bullock's August Clearance
"The One Sale of the Year"

- DO Buyers know?—Inquiries by telephone—by letter—in person—would seem to indicate that they did—would seem to indicate that no beginning of any Bullock Clearance would equal the beginning of this 1919 August Clearance in number attending and in sales—and it will be the endeavor of Bullock's to make it equally resultful, *in Friends*—
- Never a Bullock August Clearance that meant so much, in the minds of those familiar with the facts, to women and to men who would buy, and safely save—
- Never a Bullock August Clearance that recognized its responsibility more clearly, was more ready for its day—
- The general market; The demand exceeding supply; The advance of prices are matters of such common knowledge, they need no comment here—
- To the right of us, to the left of us, all about us, we hear of orders curtailed, of lines withdrawn, of price lists changed to new high marks, of other lists upon which manufacturers will not quote any prices at all, but will accept future orders subject to their ability to fill them, at *value when they may be able to fill them*—

- Indeed it is the part of wisdom for everyone who can to make reasonable provision now for future merchandise needs *at regular prices of Merchandise* today—
- It is in the face of conditions like these, at a time when it logically should not be at all, that

Bullock's August Clearance

- comes—prepared as never a Bullock August Clearance was prepared before—because of the preparations that have been under way for months—
- Purchases have been made so advantageously that one would be laughed at were one to attempt their duplication at the present time—(Purchases that could be turned over in quantity at a large profit today, were it not that the purpose for which they were acquired, that of including them in this August Clearance, was to be rigidly adhered to—)
- Bullock's own stocks have been sorted, and their Clearances arranged in accord with principles of good merchandising that might well be ignored—
- Bullock standards of character and of Service have been respected and maintained—
- Every section of the store is vigorously concerned; and all is ready for the word—Friday morning, tomorrow, at 9 o'clock—
- Many have already laid their plans—If you have not—might it not be well to do so today?
- If you do not know—"Ask your neighbour?"
- One important final word—*Dealers are not to expect to participate in this event either in small quantities or in large—*
- In every instance Bullock's reserves the right to limit purchases, and to refuse mail and telephone orders—Tomorrow, Friday, August 1, the day—commencing in the morning at 9 o'clock.

LOS ANGELES

THURSDAY MORNING, JULY 31, 1919. —PART II: 12 PAGES.

POPULATION 4,000,000 (1910) 4,100,000 (1918) 4,200,000 (1919)

VOL. XXXVIII.

NEARLY TWO MILLION FOR GREAT NEW STEEL PLANT

Southern California Iron and Steel Company to Build Immediately at Huntington Park.

Announcement was made yesterday that the Southern California Iron and Steel Company, one of the largest heavy manufacturing enterprises in Southern California, will begin immediate construction of a new steel plant at Huntington Park on a site of twenty-five acres lying between the Salt Lake and Pacific Electric Railway tracks. The investment represented will be roughly \$1,750,000.

The decision of the company is the direct result of greatly enlarging business operations, the pressure on the present plant at Fourth and Mateo streets and the belief of the controlling interests that new construction is justified because of the many large developments under way in Southern California.

There will be a group of eight buildings in the new plant, which will be built in units so that the operations of the present plant need not be interrupted. It is expected the buildings will be ready for occupancy less than a year hence.

They will be of steel and concrete construction and will include a large open-hearth mill, machine shop, nut and rivet shop, forge shop, galvanizing building, two large warehouses and an office structure. It is the intention of the company to add several new manufacturing departments and to increase the present floor space and mill capacity 50 per cent. The new plant will be the largest unit, bolt and rivet manufacturing in the West. According to the management, it will employ between 450 and 100 men, which will mean an increase of about 300 employees over the present pay roll.

The executive officers of the Southern California Iron and Steel Company are: A. C. Denman, Jr., president and general manager; E. G. Pratt, vice-president; S. K. Rindge, treasurer; A. W. Grier, secretary; George B. Stephens, superintendent, and G. H. Pettengill, assistant superintendent and purchasing agent. Mr. Denman was recently appointed as commissioner by Mayor Snyder.

The Southern California Iron and Steel Company, as well as other local steel firms, has enjoyed a great volume of business in recent years. During the period of the war it was called upon for large quantities of steel for use in shipbuilding, and little more than a year ago it almost doubled the efficiency of the plant at Fourth and Mateo streets by the installation of a new blooming mill and other modern machinery at an enormous cost.

With an early settlement of the shipyard strike apparently in sight and the announcement of large contracts for local shipbuilders, great quantities of steel will be needed. Shipbuilding companies at Los Angeles Harbor, which use immense quantities of rolled steel and iron products, are said to have orders for passenger and freight vessels which will be in the making for the next three years. More than \$100,000,000 worth of ship contracts are said to be in the hands of local firms at present.

The establishment of at least one new dry dock at the harbor this year and the manufacture of auto trucks, tractors and other types of heavy machinery, as well as the construction of office buildings, theaters and hotels, will create an additional outlet for large quantities of steel and iron.

BARLEYCORN'S SHOES FILLED.

Revenue Report Shows Great Boom in Soda Pop.

July Taxes on Soft Drinks Eclipse All Records.

War will Soon be Paid for, Opine the Jerkers.

The ice cream soda and its kindred drinks have stepped into the breach created by the demise of the late lamented John Barleycorn and in less than a month have proven themselves more popular than ever. This fact came to light yesterday in the monthly report of Internal Revenue Collector Carter, which showed that in this district the revenue collections on soft drinks for the month of July were seven times greater than the total collections of May and June.

During the two months of May and June the revenue collections amounted to \$13,552.90. When a count was made of the pennies, better known as "war tax" and which are so carelessly tossed into the little baskets alongside the cash registers of the soft drink parlors, they totaled \$9,356.74. This astounding increase, local confectioners stated yesterday, is due to a month of prohibition, which was born on July 1. It has proven that there is more money in the gastronomic regions of man, woman and child for a drink without a stick. The beverage with the wallop was appetizing, true enough, but there was a limit to human endurance, whereas the kickless drink—the ice cream soda, "coke," phosphate, frappe and banana split—always leaves room for just one more without disturbing the mental equilibrium of the consumer.

The crowded condition of the downtown soft drink parlors and corner drugstores also testifies that the popularity of the pop is increasing more in popularity each day. The marble counters are always crowded and standing room is scarcely available. A thirty person will wait for half an hour to be served by the dapper soda clerk without whimpering. Then he apologizes to the clerk for displaying any nervousness.

As on the country club, the surrounding Los Angeles calamity howler who vociferously predicted that the city would be closed in less than a week, is now in a state of confusion. The customers stand four deep at the soda fountains, and the soda clerk is in a state of confusion. The customers stand four deep at the soda fountains, and the soda clerk is in a state of confusion.

The crowds attending Hollenbeck Park have been increasing on a scale so large that the Park Department has found it necessary to install a large number of new seats.

SMASH RECORD WITH MEETING.

That's Plan for Conference Here on Foreign Trade.

Propose to Bring Thousands of Business Chiefs.

Approval of Commerce Board to be Asked Today.

The greatest gathering of business men in history will be assembled in Los Angeles next May if plans decided upon unanimously yesterday by the Executive Committee of the Foreign Trade Club are approved today by the board of directors of the Chamber of Commerce.

It is proposed to hold a Pan-Pacific trade conference closely following the international foreign-trade convention scheduled for early May at San Francisco. While between \$800 and 4000 of the leading business men of the United States are on the west coast, it is proposed to bring leading representatives of world commerce from every country except Russia and China. Unanimous decision to call the conference came following a brief presentation of the plans by the board of directors of the chamber and chairman of the committee, and a more detailed statement by George B. Stephens, director of the foreign trade department. The idea was received with enthusiasm and pledges of individual support were given by everyone present.

Directors to Say. If approval is given today by the board of directors full speed ahead will be the order. Pacific Coast chambers of commerce, especially all commercial organizations in the United States, foreign chambers of commerce and all organizations interested in overseas trade development. The Harbor Board of the city, the International Chamber of Commerce, the Los Angeles Jobbers and other organizations will be asked for active support.

An international publicity campaign will be carried on and to addition to a comprehensive program of publicity, the chamber will have the honor of foreign visitors to the harbor, the agricultural district, the industries and the city of Los Angeles. It is also expected that one of the flower festivals, planned by the city, will be held during the convention.

Atholl MacLean, president of the San Francisco Chamber of Commerce, and Robert Newton Lynch, managing director and vice-president, will attend the directors' meeting today.

MacLean emphasized the necessity of close and cordial co-operation among the Pacific Coast cities, and said the time had passed when the business men of either San Francisco or Los Angeles could limit their vision or activities to the confines of their own cities.

Mr. Lynch told the committee of his recent visit to Japan, where he conferred with a committee of directors of the Japanese Chamber of Commerce and Industry, and said that the co-operation of the Los Angeles Chamber of Commerce was highly appreciated and that the ways were cleared for more harmonious co-ordination for construction of the Pacific Coast.

DEFY :: OWN :: MUSTACHE :: MANDATE.

"We WON'T Cut 'Em Off!" Shriek Workman and Conaway.

President Boyle Workman, as he is and if he does. F.C. Langdon, now and later (maybe). O.P. Conaway, who voted to shave. Fred C. Wheeler, who has already done it.

With and Without, or the Great Mustache War in the City Council.

AT PREST-TIME this morning the mustaches of President Workman of the City Council and Councilman Conaway were bristling defiance to the majority mandate of the council that all its members shall be smooth-shaven. Both men declare they will fight the razor to the last gasp, even though Mr. Conaway did vote for the no-mustache resolution.

Mr. Langdon, the remaining mustached Councilman, says he'll shave if he has to, not unless.

Many citizens have remarked, since the new City Council took up its official duties and got down to real action, that Los Angeles has a pretty smooth set of municipal legislators, but the Councilmen are now to become smooth-faced men (maybe). An official mandate has been issued thereon, and it is duly spread forth on the official Council minutes.

Every Councilman who boasts a mustache will have to sacrifice this manly adornment for the good of the public. The Council, by a majority vote, has spoken, and it is naturally expected that members of that august body will be the last to disobey its mandates. Los Angeles may expect within a few days to see every one of the nine city lawmakers at their work with clean-shaven upper lips.

There is some little indication of recalcitrance, but the pressure of public sentiment for the enforcement of Councilmanic commands surely triumphs over this. One of the three Councilmen who stroked their upper lips with pride over their hirsute displays must feel after while that they cannot with impunity ignore the voice that has spoken.

President Boyle Workman, Councilman Frederick C. Langdon, Wheeler appeared yesterday in the Council resolution stating them in the face, and regarding their mustaches as a disgraceful relic of the past. They are the Council's mandate.

THE SAD STORY. Here's the tale: Councilman Wheeler appeared yesterday in the Council resolution stating them in the face, and regarding their mustaches as a disgraceful relic of the past. They are the Council's mandate.

Wheeler appeared yesterday in the Council resolution stating them in the face, and regarding their mustaches as a disgraceful relic of the past. They are the Council's mandate.

DENIES HALTING FEATURE FILM.

Producer Brands Reports of Abandonment as Canard.

Says Writer and Directors Went Because too Slow.

Declares Story of Baggott Production is Original.

Reports current in motion-picture circles yesterday that work upon "The Phantom Hawk," featuring King Baggott, had been stopped at the Burton studios at Dover street and Sunset boulevard, there have been summary dismissals of personnel and that the results of five weeks of work, costing some \$22,000, were practically useless because it had been discovered that the story being filmed was not original, were emphatically denied last night by Louis Burton, in charge of the studio.

He said that John Clymer, scenario writer; Hamilton Smith, director, and "Painless" Parker, assistant director, all engaged in working on "The Phantom Hawk," were dismissed last Saturday "for the good of the service." Mr. Burton declared the primary reason for the dismissals was that progress on the picture had been too slow. Work is now proceeding on the production faster than ever, he stated, with Woodrow Van Dyke directing.

He stated that the name, "The Phantom Hawk," was only tentative and did not suit him and he expects to find a new and more striking title.

The story involved, he further said, is his own conception entirely, and the scenario was prepared under his orders. The whole is entirely original, he stated.

The cost of production so far, Mr. Burton further said, is not known to anybody. "I don't even know exactly myself," he declared, "and nobody in Los Angeles has audited my books to learn. I do not think it is \$20,000. Somebody is just talking."

Mr. Burton also denied that the film so far produced is to be discarded. "Some parts of it are very, very good," he declared, "and some are still subject to revision, of course, just as the title under which we got out our temporary working script is subject to change up to the moment of release."

"I would like for some of these people who are talking to come to the studio and see us working at a faster clip than ever on this story. We are 'hooping' on it right now."

INCORPORATIONS. Hughes Ice Cream Company, Incorporated. L. Hughes, E. H. Newland, W. C. Hendrie, H. W. Taft, J. B. Berman, capital stock \$250,000, subscribed \$125,000. Tweddle Packing Company, Incorporated. F. B. McCroskey, John Tweddle, Percy W. Hammond, E. D. Stacy, W. D. Bradstock, capital stock \$500,000, subscribed \$500,000.

Have you any relatives in Caschovska, German-Austria, Jugoslavia and Poland, to whom you desire to write? Postmaster Brown yesterday received instructions that by reason of the improved postal facilities available abroad, letters, postcards, samples and printed matter, ordinary and registered, may be dispatched to these countries. But there is no parcel post yet provided for, and articles of merchandise, whether paid at the letter rate of postage or not, must not be accepted when addressed to the countries named.

"I shall continue to wear my mustache," defiantly declared Councilman Conaway. "I voted in the affirmative under a great misapprehension. I fully thought the vote was on the matter of referring the resolution to the Health and Sanitation Committee."

Councilman Conaway lowered his voice to a confidential tone and added: "I'm a member of that committee and I voted to control the clean-shaven. So I was willing to have the resolution go there."

Councilman Langdon declared that he had sacrificed his mustache only a couple of months ago, and that he was now growing it again. "I am always for peace and harmony, and I am always for the peace and happiness of this community. I will have to appear clean-shaven again."

Wheeler appeared yesterday in the Council resolution stating them in the face, and regarding their mustaches as a disgraceful relic of the past. They are the Council's mandate.

Strike up the band, here come the sailors.

Another thing, will be kept out of war with Mexico?

Race riots in Chicago. Why not send a few missionaries to that night land?

Bela Kun appears to be down and out. Boy, give him for the Jess Willard class.

Wonder how the June brides are getting on? The chances are they know, but they won't tell.

Why is a Senatorial debate? Presumably a play to the galleries. No other result is to be imagined.

Almost time for Lenin to return to New York and take up again his old job of street car conductor.

Doesn't look as if the Senate would be able to Borah approbation to that covenant of nations.

It looks at this distance that Pershing has the electoral vote of London safely in his inside pocket.

We recall the small boy who was used to wash his feet every Sunday night, whether they suited him or not.

In cases where a man more than 50 marries a girl in her early twenties it is hard to guess who is most disappointed.

Song of the child begging father who is reeling in front of the soda fountain: "Father, dear father, come home with me now."

Mexico is gallivanting around and making all sorts of faces at Uncle Sam. But she will change her mind—she always does.

The war is over, but the fate of Carr Nicholas and his family is still undetermined. All sorts of rumors are coming out of Skateryburg in the Urals.

Battling Bob La Follette is not worrying because Costa Rica was not allowed to sign the peace treaty. What's he to Costa Rica or Costa Rica to him?

William Jennings Bryan is not stamping for woman suffrage. He is anything there is a dollar in the Boy Orator of the Platte is willing to take a chance.

It is announced that beginning about September 15 the price of milk in this city will be 15 cents a quart, in which case the dealer will get all of the cream.

Down in Colombia and Venezuela the American dollar is now selling at a discount of 50 per cent. more than that in this land of the free when you try to buy something.

Senator Phelan wires that the California troops will be out of service by September. Let us hope he is right on this; he has been mistaken in so many things.

Charles E. Hughes has made suggestions as to reservations for interpretation of the League of Nations. Ain't there some danger that so many cooks will spoil the broth?

A number of cases of lunacy have recently been reported from the thieves' confessions their efforts to stealing the contents of pants. Wonder what makes the police think they are burglaries?

If the young ladies insist on wearing a stocking would it be any more than for us men to do a Little Lord Fauntleroy and wear knee breeches to follow the lead of the man who escapes the police?

The Mexican authorities are not trying to offend and are willing to pay money to the American boys who were kidnapped and held for ransom. They are almost as clever as "smugglers" as the esteemed General.

It may be a little late to ask a question, but have you ever wondered what sort of a man Jack Dempsey would have been leading the boys in the Argonne forest and Jack had nothing to keep him from going, either.

If the war correspondents were not out of breath this would be their busy year, for there are now in every direction. As for the "Twist the green sea and the blue vault is set roaring war," talk peace, but many of the people of the world are acting war. The man nature is not suspended.

What has become of the old fashioned parlor? Does its absence indicate the slow passing of the bourgeoisie as a gathering place for friends? As a rule the folks these days do not seem to want company in the house. The old order changed. But what a restful place the old parlor was! Remember the happy hours and the high-backed chairs and the velvet cushions and the shells they used to say sent back the sound of the surf when placed to the wall. And there was an old carpet brick covered with old carpet and the melody that used to give the "Rescue the Perishing" with its abounding grace.

Tragedy in Three Scenes.

CALL MEN FOR PEACE ARMADA.

Shipping Board Agents Ask for Five Hundred New Sailors a Month.

California is asked to furnish 500 men a month for the new American merchant marine, according to an announcement made yesterday by Helen J. Walker, enrolling agent at the local merchant marine recruiting office, 847 Title Insurance Building.

Although sea volunteers have come forward in large numbers, the response is not yet enough to assure full crews, for the new ships, declares Henry Avila, supervisor of the Shipping Board, Sea Training on the Pacific Coast.

Men who volunteer will be kept six weeks on the training ship Iris, at \$20 a month, and then transferred to ocean carriers at the high wages now prevailing.

Following the issuing of a felony complaint, yesterday, by Justice Summerfield, charging abduction, a telegram was last night sent by Chief of Police George K. Hume to the police department of Stockton, requesting them to apprehend John C. Filson, formerly an attorney of this city.

According to information in the hands of the local police, the attorney is said to have taken possession of his two children, Gertrude and Jack, aged 16 months and 6 months, respectively, and have fled to Stockton, after Mrs. Filson had been given the custody of the children pending the outcome of the divorce suit. According to Mrs. Filson, her husband went to a children's boarding home in the Westlake district, where the children were kept, Tuesday afternoon, and asked permission to see them. This request was granted, and later, when he asked that he be allowed to take them for a walk, it was granted.

When Mr. Filson did not appear for several hours, Mrs. Filson was notified, and yesterday she secured a complaint against her husband, charging abduction.

That the man has fled to Stockton, as he formerly lived there.

BEES IN TEXAS ARE WORKING OVERTIME.

HONEY CROP OF STATE TO BE GREATLY IN EXCESS OF THAT LAST YEAR.

(SPECIAL CORRESPONDENCE.) AUSTIN (Tex.) July 27.—It is estimated by the Texas Honey Producers' Association that the total honey crop of this State this year will be approximately 19,000,000 pounds, as compared with an average yield of 14,000,000 pounds.

One of the principal features of the crop this year has been the large exports. The shipment of sugar to points overseas has been curtailed in an effort to relieve congestion at the refineries and lessen the likelihood of a shortage in the United States, and as a result of this restriction, the foreign demand for honey has doubled several times.

From July 1 to 15, the figures of the United States Bureau of Exports show that 100 barrels and 260 cases of honey were shipped to England from 1900 cases to Italy, 100 cases to Norway and 50 cases to France. Similar records were maintained throughout the spring the shipment points including China, Belgium, Switzerland, Newfoundland, the Netherlands, and Japan.

As the result of the ban on sugar, orders for immediate shipment of honey for foreign countries have been received in advance. An order for 500,000 barrels has come from the United Kingdom and is now awaiting the preparation of the demand for honey in the United States is not as great now as during the prosecution of the war and the period just after the armistice. When sugar was under rigid restriction, honey was extensively used in the manufacture of beverages, ice cream and other articles requiring large amounts of saccharine. With the removal of sugar restrictions, however, the demand has decreased.

DEMOCRATIC PRINCE PLEASES WELSH FOLKS.

(SPECIAL CORRESPONDENCE.) LONDON, July 1.—Children strewn with flowers the path of the Prince of Wales and his wife, the Princess, as they rode through the streets of Cardiff, Wales, yesterday, were the scene of a most interesting and successful day for the prince and princess.

The prince and princess, who were accompanied by the Duke of Devonshire, the Duke of Cornwall, and the Duke of Kent, rode through the streets of Cardiff, Wales, yesterday, and were the scene of a most interesting and successful day for the prince and princess.

FROM BARROOM TO BIG RANCH.

Jack Doyle Takes up Cattle
Raising as a Business.

Has Eight Thousand Steers on
Kern County Range.

Also Wants Industry Where
He Ran Huge Saloon.

Jack Doyle, the man who put Vernon on the map and owned what was said to have been the largest saloon in the world, until the country went dry July 1, has taken up cattle ranching as a business. He owns a 9000-acre ranch in Kern county, where he grazes 8000 head of steers and carries on extensive agricultural activities.

The last schooner has gone sailing over the bar at Vernon. The good ship "Suds" has been scuttled, and if you want to gaze upon the wine when it is red you'll have to go to some museum where there are perhaps a few bottles on exhibition. But the sad fate that overtook Doyle's place at Vernon, when the national water wagon drove past, is not worrying Jack a bit. He is deeply interested in hocks and horns just now.

Doyle bought his ranch in Kern county several years ago and since that time he has brought about a wonderful transformation there. Caterpillar tractors furnish the power to cultivate the soil, electric dynamo hoist the water that is used in irrigation, and silos store up thousands of tons of ensilage which makes tender teabones out of lanky steers shipped from New Mexico and Arizona ranges.

The place is marvelously equipped for ranching on a big scale. A dozen or fifteen cowpunchers handle the big herd, and Doyle's 12-year-old son, who is much interested in the live-stock business, occasionally participates in the round-up.

From now on, Doyle says, he is going to divide his time between running the ranch and making Vernon a great industrial center. He has greater faith in Vernon than he

had before the country went dry, he declares. When he landed there it was frequently impossible to drive through the streets, because of mud. No cars were running there. Today it has good street-car service, the streets are paved and it is regarded as a going community. Doyle says he intends to stick with Vernon and see that it gets its share of the big manufacturing enterprises that are said to be headed this way.

The man who used to own the biggest saloon in the world had one bartender when he opened for business at Vernon. When he closed the doors of his place, fifty bartenders were out of jobs.

He was born at Oakland and spent his early youth as a railroad locomotive fireman. And he attributes his robust health to the fact that he never drinks liquor.

SINN FEIN WILD IDEAS ABOUT TRADE.

(A. F. RUSSELL CORRESPONDENT.)
DUBLIN, June 30.—The Sinn Fein party desires to establish Irish trade direct with the nations of the world without the intermediary of English agents. It has been suggested that Ireland should have separate trade commissioners or consuls-general in the principal trade centers and capitals of the world.

To meet the obvious difficulties of starting and financing such a scheme, Prof. John MacNeill, member of Parliament, points out that the thing may be largely done through the universities, which have the power to institute studentships in commerce tenable on condition of residence in selected places abroad. He says these students could act as Irish trade agents.

Big Hospital at Chelabinsk.

(A. F. RUSSELL CORRESPONDENT.)
OMSK (Siberia) June 3.—To meet an emergency in hospital work for wounded Russians of the army fighting the Bolsheviks, the American Red Cross has opened one of its largest hospitals at Chelabinsk. The opening of heavy fighting on the Ufa front brought many wounded soldiers to the already-burdened Russian military hospitals. The Red Cross sent to Chelabinsk Dr. Henry W. Newman.

Chelabinsk promises to be an important station for American Red Cross work this summer, as it is expected that the fighting will be particularly heavy in the district fronting it.

INLAND BASIC OPEN HEARTH STEEL PRODUCTS

Vismiera Iron
for outside work

SINCE the Government gave up control of our finest steel, we are again making Vismiera Rust Resisting Iron in sheets and plates.

The extraordinary lasting quality of Vismiera Iron makes it particularly good for culverts, flumes, roofing, silos, etc. For boiler stacks and other plate work subject to corrosion and rust, there is nothing better than Vismiera Iron. And the price is reasonable. We make it from our own strong Northern Pig and our own basic mill crop-ends.

Shipments from our favorably located Western plant can reach you quickly.

SALVAGE MEANS HELP FOR POOR.

County to Amplify Work Once
Done by Red Cross.

Will Use Receipts to Help
Deserving Indigents.

Promises Saving and Greater
Fund for Charities.

By passing a resolution instructing the county charities department to obtain necessary space and equipment to collect clothing and other articles, the Board of Supervisors yesterday laid plans to take over the salvage department recently operated here by the Red Cross.

The articles to be collected, it was stated, will be used for indigent sick and poor of the county, and the board asked the women's council of community service to aid the county in the new work.

The supervisors, in passing the resolution, pointed out the advantages of having the county handle this work, among them being the elimination of duplicated effort on the part of various organizations. Much overhead expense, it was stated, will also be done away with.

Supervisor Bean, who is in charge of matters connected with the county charities department, last night made the following statement regarding the proposed plan: "Probably the heaviest responsibility assumed by the Board of Supervisors, in the discharge of their official duties, is that of making provision for the care and maintenance of the indigent sick and dependent poor of the county; both from the financial standpoint and from the standpoint of the humanitarian. This duty assumes proportions much larger than the average citizen would suppose. One of the reasons for this is that a great deal of the relief work necessarily done by the county charity department is not generally known. It consists chiefly of outdoor relief work conducted under a well-organized department within the division of county charities, and takes the form of donations of money, clothing, all sorts of household provisions, and even personal services to assist and relieve those who are dependent, sometimes to a partial degree, and sometimes entirely. The existence of this department has shown that which every other well-directed charity has shown, namely, the only worth-while assistance is that which promotes self help.

"In the recent war work of the Red Cross it became apparent that the salvage of discarded clothing and other articles of value was a source of large revenue for a charitable purpose to which public sympathy readily responded. The supervisors, recognizing that they occupy the unique position, under the law, as trustees, to make provision for the county indigents, propose to continue in operation the co-operative work of salvage instituted on behalf of the Red Cross, and give it a practical application in the maintenance of county charities.

"It is proposed to equip the outdoor relief division of the public charities so that it will be able to handle the vast donations of cast-off clothing and other articles of value, to give employment to many unfortunate whose capabilities to help themselves are limited, permitting these semi-dependent persons to renovate and to make usable the articles donated to the County Charities Department, and finally to distribute that which was gladly given for a charitable purpose by the citizens of the county to the persons who are in need."

PEARS MEAN WEALTH.

Littlerock has Crop valued at Over
Two Hundred Thousand Dollars.

With a pear crop that is expected to realize about \$200,000 for the growers, picking will begin at Littlerock about August 10, and at Palmdale two weeks later, it was stated yesterday. The total crop of the "Pear Belt" is estimated at 125 carloads this year, of which about 100 carloads will come from Littlerock and the rest from Palmdale and Valerme. In addition, Valerme, Elizabethtown and other places have an apple crop this year that is estimated at twenty-five carloads.

In honor of the great wealth producer of the Littlerock country, the annual "Pear Day" festival of the belt will be held at Littlerock, August 2, with coffee and lemonade and pear and apple pie for all who come.

With sufficient acreage now planted to pear and apple trees to produce an estimated crop in 1926 of 1120 carloads of fruit, valued in excess of \$1,000,000, work is expected to begin this winter on a big dam in Littlerock Canyon. It will cost about \$200,000 and will irrigate some 3000 acres at Littlerock and 4000 acres at Palmdale.

HE'S FIRST ON LIST.

Former Saloonkeeper is Charged
with Selling Whisky.

Frank Firman, a former saloon keeper of this city, was charged before United States Commissioner Long yesterday on a charge of selling whisky for beverage purposes July 25. His bond was fixed at \$1000 and his hearing fixed for August 12.

Firman is already under a \$5000 bond to appear and answer a similar charge made by the State authorities. He is the first case to come before the State and Federal courts here since the war-time prohibition measure became effective.

ASK FOR CITY CAR LINE.

The Glen Alta Improvement Association has repeatedly asked the Los Angeles Railway Corporation to extend its tracks up North Hollywood Park avenue, or otherwise provide car service for that district, but the railway officials have always maintained this is impossible under existing conditions. Now the association appeals to the City Council to build a municipal line. The matter was referred by the Council yesterday to its Public Welfare Committee.

CURLY PUTS

Angel Portside's
McCredie

BY HAR

Rather than get skinned twice over, the Angels smoked up the Beavers, 4 to 1.

Curly Brown, who had done more taxing than coach on the bench on the day before, was stout for Red Oldham, although in the last analysis, even the upthrust, Red's overthrow was to punk support. Quite a crowd for Wednesday, which was more temperamental and their of a high old time is to see two winners in action at the same time. Brown's victory was in the nature of vindication for which he was waiting. Once upon a time and Oldham pitched on the San Francisco club side by each. There came a time when two soups were considered too many. The good of the games in those days and it was decided to ship out Los Angeles.

TAO CURLY.

Curly was the one tagged these parts and Oldham went down the depot and emitted a note triumph when the train pulled out in the course of the passing. He got the can himself, and the couple up with Portland. There was one about that the whiff of states battled here yesterday, but he got even by throwing a smoke into Red.

Looking a game to Los Angeles, smothered Walter McCredie that protested the game. The protest was filed as the result of what he termed illegal coaching, which consisted of the laying on of hands on the pitcher's arm.

Curly was on the coaching line, Dolmans in action at the same time. Twelve only of these.

RAY BUSTLES.

On a play at first base, Ray Bustles was busy around the diamond, corner from second with who proved to be the winning run, although the Angels got a couple after that. The turn at third base was not banked, and Ray skidded into Littlerock. Ray then tried to get a general confusion by falling down.

Most of these are shown in a very few in taffeta, wool

CURLY PUTS IT ON OLDHAM

Angel Portside's Curves Too Elusive for McCredie's Kindergarten.

BY HARRY A. WILLIAMS.

Curly Brown, who had done nothing more taxing than coach from the bench on the day before, was sent for Red Oldham, although the last analysis, even though Red's overthrow was a punk support. Quite a large crowd for Wednesday, which is situated halfway between two pay days, sat stepped in admiration at the sidewinders wound and around through the brilliant afternoon. The crowd was composed of human beings and baseball bugs, later predominating. The bugs were temperamental and their idea of a high old time is to see two sides in action at the same time. Brown's victory was in the nature of a vindication for which he had waited. Once upon a time he had pitched on the San Francisco club side by each. Then came a time when two south-westerners were considered too many for the good of the games in those parts and it was decided to ship one to Los Angeles.

TAG CURLY. Curly was the one tagged for these parts and Oldham went down the depot and emitted a note of triumph when the train pulled out. The course of the passing years had got the can himself, and then he pitched it was fitting that a pitcher be on the coaching line. Brown's victory was in the nature of a vindication for which he had waited. Once upon a time he had pitched on the San Francisco club side by each. Then came a time when two south-westerners were considered too many for the good of the games in those parts and it was decided to ship one to Los Angeles.

RAY BUSTLES. On a play at first base, Ray Bates was busting around the difficult corner from second with what seemed to be a sure thing. But the Angels got a couple of hits. The turn at third base was batted, and Ray skidded into the bag. Ray then added to the general confusion by falling down.

Desmond's
Spring Near Sixth

We'll Say He Can Twirl that Old Pill.

Here we have Curly Brown, the clever Angel portside, who is regarded by many as the Pacific Coast League's best pitcher. Brown broke his losing streak yesterday by putting them where the Portland bats weren't and he declares he will repeat before Mac takes the rattle from here again.

SHORT TENNIS IS THE RULE.

(SPECIAL CORRESPONDENCE.)

LONG BEACH, July 30.—Two-set matches, for the most part calm and collected affairs, proved the rule again today in the third day's play in the annual Southern California tennis championship tournament in progress on the Hotel Virginia courts. The single exception that proved the rule was a three-set game in the men's singles, when Kinney, Ketchum in a well-played match, 5-6, 6-4, 6-3.

It was a bad day for the Barker brothers. Early this morning Cliff Barker, going like a whirlwind, eliminated Clarence Barker in two straight sets, 6-2, 6-1. Later in the day Eric Barker fell in a sensational two-set struggle with Eugene Warren, 6-2, 8-6.

LEVY BEATEN. In other events in the men's singles, after Levy had previously eliminated Godshall, 6-2, 6-3, while he also had previously disposed of Jones, 6-2, 8-6. Kinney defeated Mace, 6-3, 6-3.

The men's doubles events were all two-set affairs. Godshall and Allen beat Reager and Silke, 7-5, 6-2; Barker and Barker defeated Bunch and Stopp, 7-5, 6-1, and Davies and Hawks beat Cornett and Berry, 6-2, 6-2.

Williams and Smith defeated Eastman and Kinney in an exciting contest, 10-8, 6-4. Later in the day, Mace and Hawks in a comparatively easy manner, 6-2, 6-1.

STANFORD UNIVERSITY, July 30.—Coach Bob Evans of the Stanford football team intends to make a manly effort in the coming season to prevent history from repeating.

The score of 72-0 that Washington rolled up on the University of California when that college returned to the American game in weighing on his mind.

To prevent a like slaughter falling the lot of the Cardinal athletes this fall when they line up in the American style for the first time since 1908, he is making every effort to get his new material in shape at a very early date. Preliminary practice will start early in September and as the big game with Berkeley is not scheduled until December there ought to be plenty of time for him to accomplish his plans.

A GOOD MAN.

Evans was appointed to handle the major part of the athletic coaching last winter, and made good by developing the first winning baseball team that Stanford has had in a number of years.

A few years ago Evans was a star player on the University of Illinois eleven and later he was coach of the University of Colorado football teams. The nickname he earned in his own playing days was

"Fighting Bob" and from his record here this spring he is continuing to live up to it. He will have an assistant coach at Stanford who is to be selected later in the summer.

NO SLAUGHTER.

Evans claims that no scores of the 72-0 variety will be chalked up against the Cardinals for Stanford already has a number of former American football stars registered at college.

Among these is the redoubtable and general weight man, "Herb," learned to play American in the army and while playing with the best of the eastern men easily outclassed them. E. R. Caughy is another fast and heavy man that should clinch a place in the back field. He is a former track captain and took first in the shot put in the Pacific game recently.

Former Rugby stars like Lilly, the Stanford sprinter, Pelouse, Righter, Adams and Wilber will return in the fall and brighten Stanford's chances considerably. Conference rules will not prohibit a four-year Rugby man from playing the American game.

Games for the Palo Alto aggregation have been scheduled with the University of Oregon, Oregon Aggies, the University of Washington, Washington State, Santa Clara and the University of Southern California.

TILDEN PLAYS FINE TENNIS.

Philadelphia Expert Too Much for Voshell.

Sensational Work Develops in the Doubles.

Most Brilliant Showing Since Old War Days.

BY FRED HAWTHORNE.

SEABRIGHT (N. J.) July 30.—Both singles and doubles reached into the semi-final round this afternoon, in the annual tournament of Seabright Lawn Tennis and Cricket Club. Incidentally, today's matches brought forth the most brilliant exhibition of lawn tennis seen on the classic courts since the fine old days before the war.

It was in the doubles that the most sensational play developed and here, indeed, the galleries in the two stands found plenty to enthuse over.

The men who came through in the singles were Walter Merrill Hall, William T. Tilden II, Leonard Beckman and Frederick B. Alexander. They will face each other in that order tomorrow afternoon for the right to play in the final round on Saturday. Hall and Tilden will go on the courts at 5:30 o'clock and Beckman and Alexander starting a half hour earlier.

WIN DOUBLES. In the doubles the winners were Beckman and Hall, Alexander and Voshell, Kinsey and Graven, and Tilden and Vincent Richards, the national champions. The first two pairs will meet tomorrow at 3 o'clock and the second pair at 5:30.

Perfect tennis was treated to the players when they arrived at the courts this afternoon. There was just the suggestion of a breeze, a cloudless sky and enough coolness in the air to bring out the best points of the players.

The features in the singles brought together Tilden and Voshell on the courts at 5:30. Tilden, founder of the National Tennis Association and its present chairman, was the more experienced. A full set of linesmen were in their places and the native ball boy cracked the green ball.

Voshell began the service against Tilden and won the opening game at 10-8. Tilden then showed a wicked break as he struck the ground and generally to Tilden's backhand. The former national champion, who had won the title in 1914, 1915 and 1916, was in kind in the second game and then started a streak of lightning play that won him the next four games in a row.

WICKED TWIST. Tilden was working a variation of service that bothered Voshell considerably, alternating his straight "cannon-ball" delivery with a wicked reverse twist that sent the ball careening crazily high over Voshell's head.

Tilden backed this up with sharp volleying across the forecourt. These shots were played with extreme angles that it was almost impossible for Voshell to get his racket into position many times. He managed to take the seventh game on his own service, and then the tall Philadelphia took the eighth game for the set at 6-5.

Voshell had not shown anything like the full power of his game up to this point. His ground strokes were none too good, and these faults troubled him until he did not seem able to hit his stride in any department.

WINS ON OWN. The former indoor champion began the service in the second set, but Tilden broke through at once and made it 2-0 on games by winning the first two.

The Philadelphia was uncovering wonderful strength on his back hand at this stage, ripping slicing drives across the court in a manner that had Voshell diving desperately after the ball as he came charging down from his baseline.

Twice in the tenth game Tilden needed only one point for the match but Voshell's brilliant play at that time held him off.

The eleventh game went to deuce five times before Tilden could clinch it with a wonderful short half volley across forecourt and a terrific smash of a short ball. He had pulled the game out from 0-40 on points, and the loss of this game spelled the end for Voshell.

BECKMAN THERE. In the fourth singles match of the day Leonard Beckman of the Princeton, defeated Axel Graven of California, by a score of 6-3, 6-4. The youngster from the Coast could not hold his own against Beckman's sterling volleying and smashing.

SHE :: DOES :: GET :: TIRED :: ONCE :: IN :: A :: WHILE.

"Peppy Polly" Never Appeared Like This in Films.

Dorothy Gish, Star of "Nugget Nell," at Clune's Broadway, taking a siesta after having assisted in beating Bobbie Harris and Sister Lillian for the Griffith studio tennis championship.

PULLING FOR TOM AND MAURY.

Without a dissenting voice the entire Pacific Coast is with the genial Tom Bundy and the auburn-haired McLaughlin in their efforts to come back again this year and win the national doubles championship and have been going strong. Having won the Pacific Coast play, McLaughlin and Bundy will battle for the honors of California; for Los Angeles in particular.

It has often been said that two veterans could not, after a lay-off for some time, come back and expect to take the title again. However, the experts all agree after having seen the two men play in the Pacific Coast championships that it would be difficult to match their play.

It should be remembered, however, that some of the country's best phenoms are entered in the national doubles championship tournaments on the courts of the Longwood Cricket Club, Boston, Mass. The entrants are all winners in their respective sectional championship tournaments, and they all sit up extremely well.

THE SMILING prognosticator of tennis events, Brother Simpson M. Simsbach, believes his two business and play associates will encounter no marked trouble in subduing the elements in the East. Both Bundy and McLaughlin have met nearly all of the eastern players before and know the style and methods of each of them. Allowing themselves ten days or so in which to get their "turf legs" the proposition of "Veni, Vidi, Vici" doesn't look as serious as it seems.

At Chevy Chase, Maryland, the Middle Atlantic champions turned up in Fred H. Harris and Conrad B. Doyle. The Middle States will send Kumagi, a most clever Japanese, net exponent, and Harold Throckmorton, far from a bad one himself. The Tri-State champs are Fred B. Alexander and Howard Voshell. The southern championships brought forward E. V. Carter and J. K. Orr. From the New England championships, Norris Williams was sent.

Vernon Gets Trouncing from Oaks; Dawson, Fromme and Dell Slaughtered.

TIGERS' TEETH ARE YANKED.

Oaks Tame Jungle Babies into Meek Tabbies.

Commuters Pounce on Dawson in Fifth Inning.

Fromme and Wheeler also Pounded Hard.

(EXCLUSIVE DISPATCH.)

SAN FRANCISCO, July 30.—The Vernon Tigers may be man-eating raw-meaters on their home lot, but they look like tame tabbies full of hot milk when hooked up against the Oaks here. The Oaks won again today, 4-1, and to do so they had to overcome a five-run lead that the Tigers picked up in the fourth inning.

Del Howard trotted out his new left-hander, Denny Gearin, who looks like a half portion of a man when compared to Russ Arlett, Wheeler Dell, Tom Seaton, Jim Scott and the other big moundmen, and the little giant certainly delivered the merchandise. One must give the Tigers credit for taking full advantage of the only opening they got.

BOOTS IT. Chadbourne opened the fourth inning by bouncing a hot one off the glove of Gearin. Meusel hit the ball hard and Grover booted it. Berry...

FLASHES.

KOSLOFF IN FILMS.

FAMOUS PLAYERS-LASKY GET NOTED DANCER.

By Grace Kingsley.

Theodore Kosloff, perhaps the most famous Russian male dancer who has ever visited this country, has signed a contract with Famous Players-Lasky, whereby he will start in pictures for that organization during the next five months, commencing August 1.

Cecil de Mille, director-general, will direct Mr. Kosloff. Two pictures are to be produced under his direction, the first of which will probably be a picture of the play, "The Wanderer," founded on the Bible story of the prodigal son, which was a tremendous hit in New York and throughout the country last year.

"I cannot say how delighted I am that that great artist, Cecil de Mille, is to direct me," said Mr. Kosloff, yesterday.

The noted dancer has been enjoying a vacation in Southern California for about three weeks, following the closing of his Orpheum tour. Now he has rented a bungalow in Hollywood, and has purchased a car, which he is learning to drive, but with which he came near having an accident yesterday in Griffith Park, when, running true to form, he got absorbed in studying over a new dancing act, while driving.

One wheel went over the edge of a cliff, but he righted the machine and got an inspiration in the same instant, so that really the near-accident proved the basis of a contribution to art.

Mr. Kosloff spent most of his vacation in San Diego, where he pursued the sister art of which he is noted, viz., painting landscapes. He brought back with him two canvases.

It looks as though he were going to have a busy season, for besides his picture activities, he will open a school of ballet and classical dancing in Trinity Auditorium, where he will preside when not actually engaged in his film work.

And where the two beautiful young women who were with him in his ballet at the Orpheum, Misses Frews and Rambo, will be the instructors. A grand opening will be given by the institution within a few days.

And as though this were not enough, Mr. Kosloff will continue his pursuit of the art of painting, as he means to make a number of landscape oils of California mountains.

"I don't in the least mind arduous work," he said, "and I hope to have an exhibition of my pictures before the winter is over."

Feicilla on Her Own.

Just as predicted yesterday morning, lovely Feicilla Dean, one of the best drawing cards Universal ever had, is to have her own company, H. P. Caulfield is her manager, and at present is arranging for the securing of a studio for her. It is understood financial arrangements for her backing are entirely completed.

Miss Dean has just returned from Vancouver, looking more blooming than ever. While in the north she saw with some members of the British air squad stationed there every day, and even learned to run a flying machine herself.

Details concerning Miss Dean's company are to be announced later, when arrangements for a studio are definitely completed. Already she

has an option on the rights of a famous story which she will make. Whether this decision of Miss Dean's to have her own company will involve her in a lawsuit with Universal, to whom she is still under contract, is not known, but it is thought that an amicable arrangement will be made whereby Miss Dean's contract may be transferred to the new company.

Carroll McCormac Arrives.

Carroll McCormac, daughter of the late Judge McCormac of this city, who became a great favorite of the New York stage since she left home a few years ago, and who has spent the last year and a half abroad entertaining soldiers in the trenches in France, arrives in the city this evening.

Miss McCormac had many thrilling adventures abroad, and is coming West to rest a couple of weeks with her mother and her sister, Mrs. Robinson.

It is whispered there is romance abroad in the land, and that Miss McCormac is engaged to marry a rich New Yorker, but this interesting question won't be settled until Miss McCormac tells us about it herself.

William Wickham Engaged.

William Wickham, well-known dancer, but who has been appearing in pictures of late, has been engaged to play a leading role in the Romyne film, "Shams," written and to be directed by William Wickham. Work will commence on the potpourri in about two weeks.

Robert McKim to Direct.

Graduating into directors is one of the best little things our handsomeness actors do nowadays. Any time a man gets absorbed in studying over a new dancing act, while driving, he is not going to miss the chance. Who do you think is the latest good-looking member of the acting profession who is now looking forward to the megaphone and horn-rimmed glasses? None other than Robert McKim, famous player of leads and heavies in the films, and rated one of the best actors in the country with a long stage experience behind him.

Benjamin Hampton is the man who recognized the directorial talent in Mr. McKim and who will shortly promote him. Mr. McKim is to direct a series of pictures for the Great Authors Company, of which Mr. Hampton is president and guiding genius.

Seymour Tully Returns.

Seymour Tully returned from New York Tuesday. He attended the meeting of the First National Exhibitors' Circuit, of which T. L. Tully, his father, is president. Mr. Tully reports the result of the meeting left all the members in high spirits, despite the awful New York heat. He also reports it was that heat which caused him to bring back a gripful of melted collars, rather than the one he brought back at the First National meeting.

In short, First National is getting along finely, thank you, and will have some important announcements to make later on, he avers.

Mr. Tully says he spent some pleasant hours with Norma Talmadge and her husband, Joseph Schenck, and with John Emerson and Anita Loos Emerson, scenario writers.

De Mille to Purchase Jewel.

Cecil B. De Mille is negotiating with the Red commissary of Budapest for the purchase of the most sacred historical treasure of Hungary—the crown of St. Stephen. The Red commissary, who is now in the hands of the famous Players-Lasky Corporation, recently offered a bona fide offer of \$50,000 for the crown.

De Mille, through the foreign representatives of the corporation and the Commercial National Bank, has been negotiating for the crown since he announced the forthcoming production.

De Mille has just returned from Budapest, looking more blooming than ever. While in the north he saw with some members of the British air squad stationed there every day, and even learned to run a flying machine herself.

Details concerning Miss Dean's company are to be announced later, when arrangements for a studio are definitely completed. Already she

has an option on the rights of a famous story which she will make. Whether this decision of Miss Dean's to have her own company will involve her in a lawsuit with Universal, to whom she is still under contract, is not known, but it is thought that an amicable arrangement will be made whereby Miss Dean's contract may be transferred to the new company.

Carroll McCormac Arrives.

Carroll McCormac, daughter of the late Judge McCormac of this city, who became a great favorite of the New York stage since she left home a few years ago, and who has spent the last year and a half abroad entertaining soldiers in the trenches in France, arrives in the city this evening.

Miss McCormac had many thrilling adventures abroad, and is coming West to rest a couple of weeks with her mother and her sister, Mrs. Robinson.

It is whispered there is romance abroad in the land, and that Miss McCormac is engaged to marry a rich New Yorker, but this interesting question won't be settled until Miss McCormac tells us about it herself.

William Wickham Engaged.

WITH :: MOROSCO :: COMPANY.

New Member of "Civvy Clothes" Cast.

LIBRARY TO FEATURE VANDALISM EXHIBIT.

By Edwin Schallert.

Next to the wholesale endeavor of motion-picture producers to gain a firm and lasting foothold in the foreign market, hardly any tendency of more general import can be cited than the move to bring about a closer union of stage and screen production interests. Not long ago the Laaky-Famous Players announced the absorption of the Charles Frohman, Inc., and now the Goldwyn Pictures Corporation has made a rival move by tying up with the Shubert interests.

Announcement was made yesterday from New York that papers were signed to mark the entry of Lee Shubert and A. H. Woods, officers and directors of the Goldwyn Pictures, into the Goldwyn Pictures. Coincidentally the picture corporation made known that the capitalization is to be increased from \$2,000,000 to \$20,000,000.

Any virtue of the entrance of the theatrical managers into the combination, the Goldwyn corporation will have picture rights for all the dramatic successes produced by the Shubert, Woods and Selwyn interests. Furthermore, the number of theaters controlled by the Shuberts in this country is great, and the advantages to the Goldwyn corporation from the exhibition angle.

Woods, Selwyn and the Shuberts have an immense number of plays in their control, all of which will be available for production by the Goldwyn company. Therefore, arrangements have been made for a great expansion of production facilities.

The officers of the Goldwyn corporation are now as follows: Sam Goldwyn, president; F. J. Selwyn, vice president; Lee Shubert, treasurer; P. W. Haberman, treasurer; Henry Littleton and Harmon August, directors.

It is generally believed that the merging of the theatrical and film-producing interests will do much to remove the antagonism which has been inimical to the relations between the two lines of amusement activity. Having a common purpose, they will be enabled to improve each type of entertainment in its proper place, so as to hasten the day when the lines are well understood and the relations are better.

The picture industry in particular should gain greatly from the union of the two lines. Practically all film concerns are now seeking improvement in stories, and for the present the stage is the source of established successes in literature or drama.

The Goldwyn corporation already has made arrangements for the production of a series of stories by such authors as: R. M. K. Rinehart, Rupert Hughes, Gouverneur Morris, Basil King, Gertrude F. Wheeler, and others. These are to be personally supervised by the authors. This is an enterprise of the present business world which will also bring the dramatists within the fold.

Started Success Here.

Leighton Graves Osmun, who wrote "The Fortune Teller," in which Marjorie Rambeau is appearing this week at Clune's Auditorium, is looking forward to the production of the picture of the same name at Laaky's, Metro and other studios. Among his picture plays were "The Devil Stone," in which Geraldine Farrar was featured; "Sessue Hayakawa," which starred Sessue Hayakawa; and "The Two," a Marie Doré photoplay, as well as Edith Storey films. Osmun's father is a bank official at Whittier, Cal.

Symphony Merges.

Chances for a merger of the symphony interests seem to have dwindled within the past two days. W. A. Clark, who has been working on the plan, according to the graphic advice of Mr. Behrmer, and Los Angeles Symphony Orchestra has adopted a resolution to elect Mr. Clark for his attitude, and ahead with the orchestra according to the original plan. The directors of the Los Angeles Symphony Orchestra, however, in a resolution that they had taken all the initiative in the endeavor to bring about a consolidation of the interests, and that Mr. Clark had refused to consider a merger and has given no reason for his refusal.

I. E. Behrmer, manager of the new Philharmonic Orchestra, stated that Mr. Clark and his associates did not refuse to consider a merger suggested by the Los Angeles Symphony board. On the contrary, he said, "they gave it lengthy and unbiased consideration, but are certainly privileged, if the different items of cost offered were up for giving a definite reason why the merger was unacceptable, it is not a question of one reason, but many, involved to drag into publicity. The matter seems to rest with the determination of both orchestras to continue their plans separately."

Has Interesting Support.

The cast supporting Louise Glaum, star of the new Garden of Eden Sullivan drama, now showing at the California Theater, is a small one, but numbers large in ability and popularity.

Louise Glaum is the young actress who started her picture career as an understudy for the role of the mother in "The Sign of the Cross," a picture produced by Thomas H. Ince into a vampire portrayal.

Edwin Stevens, in support of Miss Glaum is Matt Moore, one of those good old Irish fellows, of whom the picture world has lost a number. Owen and Joe. The public has accused Matt Moore of being the husband of Mary Pickford, Alice Joyce and Grace Cunard, but as a matter of fact, Matt is the only bachelor of the family.

"Sahara," Stevens, also appearing in "Sahara," is one of the human-type villains, which means that on the screen he looks good on the outside, but has the weakness of a human being is heir to within. He was a stage star, his biggest hit being the

title role of "The Devil," in Ferenc Molnar's famous drama.

Makes Sharp Distinction.

William D. Taylor, who directed the Famous Players-Lasky production of "Huckleberry Finn," had some unexpected troubles when he had his large company—most of the youngsters out on location filming the river scenes.

Lewis Sargent, 15-year-old lad—Edmund's red-headed and freckle-faced—was walking down the street in company with some of his co-actors when a strange youth got in their path.

"Come on, you fresh movie punks," the stranger shouted, "I'll take you all on and whip you."

That was too much for young Sargent. He had been cautioned not to fight—that was the last instruction Mr. Taylor gave the troupe before they left the studio—so he told the strange youth he would wrestle him. They went to it and were engaged in a wild tussle when Mr. Taylor happened along to stop the engagement.

That night the director called all the company together and announced his previous order. "I told you all that you are not to fight," he said. "Also, you are not to wrestle."

SEAPLANES TO MOOR SUNDAY OFF VENICE.

BALLOON AND STREET DANCE ARE ALSO FEATURES OF BEACH PROGRAMME.

[EXCLUSIVE DISPATCH.]

VENICE, July 30.—Twelve or more hydroplanes from North Island, San Diego, are expected to arrive here Sunday, and remain throughout the day, as an attraction for the public.

The planes are to be in charge of Lieutenant Commander Edwin Spencer. They will send a wireless message to the beach, and will be open to inspection by the public during the day.

Each will have a crew consisting of two pilots and a wireless operator, and these crews are to be allowed shore leave.

Another attraction will be furnished by the Arcadia Balloon School, that will send a bottle of light. It is to take aloft a party of five army officers and remain up all night, under the glare of searchlights.

Venice will also give a street dance for the visiting men of the air service.

The Chamber of Commerce here will select a young woman to represent the "Spirit of the Air." She will make her first airplane flight during the evening. In the afternoon, the beach will break a bottle of Pacific Ocean water on the air port lighthouse, at the aviation field soon to be known as the "Field," and will christen the structure.

HOLD UP IMPROVEMENT.

South Pasadena Resident Claims Signatures Not Lawful.

[LOCAL CORRESPONDENCE.]

SOUTH PASADENA, July 30.—August 11 has been set as the date when protests entered by Robert Casanovi, protesting against the petition for a diamond avenue to be heard. Those opposed to the improvement represented 130 feet more than enough to hold up the work. Those favoring the improvement brought up the matter of four signatures to the protest which they claim illegal. One in which a man signed for his mother, who, other than for relatives without power of attorney it is said. A decision will be made by the Council on the legality of the protested signatures before the work is ordered done.

MORE SCHOOL BONDS.

[LOCAL CORRESPONDENCE.]

SANTA ANA, July 30.—An election is to be held September 2 for the issuance of \$50,000 bonds of the Santa Ana High School district. The date for the election has just been set by the Board of Education, and the money will be used for erecting a High School assembly-room seating 1,000 people. The school work part of the present administration building. Alumni of the school are sponsors for the construction of the building and are conducting registration of voters in preparation for the election.

SANTA ANA LICENSES.

BRIEFS.

STAGE AND SCREEN UNITING FOR MUTUAL PROGRESS.

By Edwin Schallert.

Next to the wholesale endeavor of motion-picture producers to gain a firm and lasting foothold in the foreign market, hardly any tendency of more general import can be cited than the move to bring about a closer union of stage and screen production interests. Not long ago the Laaky-Famous Players announced the absorption of the Charles Frohman, Inc., and now the Goldwyn Pictures Corporation has made a rival move by tying up with the Shubert interests.

[EXCLUSIVE DISPATCH.]

VENICE, July 30.—Twelve or more hydroplanes from North Island, San Diego, are expected to arrive here Sunday, and remain throughout the day, as an attraction for the public.

The planes are to be in charge of Lieutenant Commander Edwin Spencer. They will send a wireless message to the beach, and will be open to inspection by the public during the day.

Each will have a crew consisting of two pilots and a wireless operator, and these crews are to be allowed shore leave.

Another attraction will be furnished by the Arcadia Balloon School, that will send a bottle of light. It is to take aloft a party of five army officers and remain up all night, under the glare of searchlights.

Venice will also give a street dance for the visiting men of the air service.

The Chamber of Commerce here will select a young woman to represent the "Spirit of the Air." She will make her first airplane flight during the evening. In the afternoon, the beach will break a bottle of Pacific Ocean water on the air port lighthouse, at the aviation field soon to be known as the "Field," and will christen the structure.

HOLD UP IMPROVEMENT.

South Pasadena Resident Claims Signatures Not Lawful.

[LOCAL CORRESPONDENCE.]

SOUTH PASADENA, July 30.—August 11 has been set as the date when protests entered by Robert Casanovi, protesting against the petition for a diamond avenue to be heard. Those opposed to the improvement represented 130 feet more than enough to hold up the work. Those favoring the improvement brought up the matter of four signatures to the protest which they claim illegal. One in which a man signed for his mother, who, other than for relatives without power of attorney it is said. A decision will be made by the Council on the legality of the protested signatures before the work is ordered done.

MORE SCHOOL BONDS.

[LOCAL CORRESPONDENCE.]

SANTA ANA, July 30.—An election is to be held September 2 for the issuance of \$50,000 bonds of the Santa Ana High School district. The date for the election has just been set by the Board of Education, and the money will be used for erecting a High School assembly-room seating 1,000 people. The school work part of the present administration building. Alumni of the school are sponsors for the construction of the building and are conducting registration of voters in preparation for the election.

LIBRARY TO FEATURE VANDALISM EXHIBIT.

By Edwin Schallert.

Next to the wholesale endeavor of motion-picture producers to gain a firm and lasting foothold in the foreign market, hardly any tendency of more general import can be cited than the move to bring about a closer union of stage and screen production interests. Not long ago the Laaky-Famous Players announced the absorption of the Charles Frohman, Inc., and now the Goldwyn Pictures Corporation has made a rival move by tying up with the Shubert interests.

Announcement was made yesterday from New York that papers were signed to mark the entry of Lee Shubert and A. H. Woods, officers and directors of the Goldwyn Pictures, into the Goldwyn Pictures. Coincidentally the picture corporation made known that the capitalization is to be increased from \$2,000,000 to \$20,000,000.

Any virtue of the entrance of the theatrical managers into the combination, the Goldwyn corporation will have picture rights for all the dramatic successes produced by the Shubert, Woods and Selwyn interests. Furthermore, the number of theaters controlled by the Shuberts in this country is great, and the advantages to the Goldwyn corporation from the exhibition angle.

Woods, Selwyn and the Shuberts have an immense number of plays in their control, all of which will be available for production by the Goldwyn company. Therefore, arrangements have been made for a great expansion of production facilities.

The officers of the Goldwyn corporation are now as follows: Sam Goldwyn, president; F. J. Selwyn, vice president; Lee Shubert, treasurer; P. W. Haberman, treasurer; Henry Littleton and Harmon August, directors.

It is generally believed that the merging of the theatrical and film-producing interests will do much to remove the antagonism which has been inimical to the relations between the two lines of amusement activity. Having a common purpose, they will be enabled to improve each type of entertainment in its proper place, so as to hasten the day when the lines are well understood and the relations are better.

The picture industry in particular should gain greatly from the union of the two lines. Practically all film concerns are now seeking improvement in stories, and for the present the stage is the source of established successes in literature or drama.

The Goldwyn corporation already has made arrangements for the production of a series of stories by such authors as: R. M. K. Rinehart, Rupert Hughes, Gouverneur Morris, Basil King, Gertrude F. Wheeler, and others. These are to be personally supervised by the authors. This is an enterprise of the present business world which will also bring the dramatists within the fold.

Started Success Here.

Leighton Graves Osmun, who wrote "The Fortune Teller," in which Marjorie Rambeau is appearing this week at Clune's Auditorium, is looking forward to the production of the picture of the same name at Laaky's, Metro and other studios. Among his picture plays were "The Devil Stone," in which Geraldine Farrar was featured; "Sessue Hayakawa," which starred Sessue Hayakawa; and "The Two," a Marie Doré photoplay, as well as Edith Storey films. Osmun's father is a bank official at Whittier, Cal.

Symphony Merges.

Chances for a merger of the symphony interests seem to have dwindled within the past two days. W. A. Clark, who has been working on the plan, according to the graphic advice of Mr. Behrmer, and Los Angeles Symphony Orchestra has adopted a resolution to elect Mr. Clark for his attitude, and ahead with the orchestra according to the original plan. The directors of the Los Angeles Symphony Orchestra, however, in a resolution that they had taken all the initiative in the endeavor to bring about a consolidation of the interests, and that Mr. Clark had refused to consider a merger and has given no reason for his refusal.

I. E. Behrmer, manager of the new Philharmonic Orchestra, stated that Mr. Clark and his associates did not refuse to consider a merger suggested by the Los Angeles Symphony board. On the contrary, he said, "they gave it lengthy and unbiased consideration, but are certainly privileged, if the different items of cost offered were up for giving a definite reason why the merger was unacceptable, it is not a question of one reason, but many, involved to drag into publicity. The matter seems to rest with the determination of both orchestras to continue their plans separately."

Has Interesting Support.

The cast supporting Louise Glaum, star of the new Garden of Eden Sullivan drama, now showing at the California Theater, is a small one, but numbers large in ability and popularity.

Louise Glaum is the young actress who started her picture career as an understudy for the role of the mother in "The Sign of the Cross," a picture produced by Thomas H. Ince into a vampire portrayal.

Edwin Stevens, in support of Miss Glaum is Matt Moore, one of those good old Irish fellows, of whom the picture world has lost a number. Owen and Joe. The public has accused Matt Moore of being the husband of Mary Pickford, Alice Joyce and Grace Cunard, but as a matter of fact, Matt is the only bachelor of the family.

"Sahara," Stevens, also appearing in "Sahara," is one of the human-type villains, which means that on the screen he looks good on the outside, but has the weakness of a human being is heir to within. He was a stage star, his biggest hit being the

title role of "The Devil," in Ferenc Molnar's famous drama.

Makes Sharp Distinction.

William D. Taylor, who directed the Famous Players-Lasky production of "Huckleberry Finn," had some unexpected troubles when he had his large company—most of the youngsters out on location filming the river scenes.

Lewis Sargent, 15-year-old lad—Edmund's red-headed and freckle-faced—was walking down the street in company with some of his co-actors when a strange youth got in their path.

"Come on, you fresh movie punks," the stranger shouted, "I'll take you all on and whip you."

That was too much for young Sargent. He had been cautioned not to fight—that was the last instruction Mr. Taylor gave the troupe before they left the studio—so he told the strange youth he would wrestle him. They went to it and were engaged in a wild tussle when Mr. Taylor happened along to stop the engagement.

That night the director called all the company together and announced his previous order. "I told you all that you are not to fight," he said. "Also, you are not to wrestle."

schemes of plaids, checks and the
plain shades, specially priced at . . .
39c, 59c, 75c and 95c yard.
(Dress Cottons: Second Floor)

LOOTERS' CAR IDENTIFIED. Rented it to Harris, Salesman Testifies; Recovered Stamps are Recognized.

Lewis B. Harris, the alleged head of the gang of bandits that robbed the First National Bank and post-office at Artesia March 25 of Liberty bonds, stamps, etc., valued at about \$21,000, had a bad day before a jury in Judge Taft's court, yesterday.

In addition to an outbreak of rage against President George R. Frampton of the bank, which followed the testimony of Frampton, detailing Harris's alleged confession of his participation in the robbery, C. C. Keller, an automobile salesman connected with the Stilwell Garage, 326 South Grand avenue, told of renting to Harris the Haynes automobile, 17671, that was found the morning after the robbery in the Artesia school house lot.

Mr. Keller said that on the evening of March 24, the day before the robbery, he rented a machine to a man whom he recognized as Harris. At that time Harris gave him the name of Ed King and his address as 1403 Kingwell street. Harris, whom he pointed out in the crowded courtroom, had paid \$40 for the use of the automobile. Mr. Keller testified. The witness detailed how he had recovered the machine at Artesia the next day. Harris told him that he was going out on a business trip, Mr. Keller said.

James Sewell, of Artesia, testified to the finding of the prestolite and the stolen Liberty bonds, which were done by the robbers in their getaway, and J. F. Purviance, who runs a blacksmith shop opposite the First National Bank at Artesia, identified a number of hammers, bars and punches that he saw on the night of March 24. They were afterward found in the general store of Scott and Frampton, where the robbery took place.

Mr. Enderlin, manager of the Plaza apartments in Venice, produced the register showing that Harris and "wife" had registered at that place, Monday, March 13, and had remained there for two weeks and two days. Harris left the place at the end of that period. Mr. Enderlin testified, but left no forwarding address, claiming that he was going to San Francisco. Harris gave him a draft on New York for his bill, but sure that Harris had a difference in the charges and the instrument. He stated that a night or two before Harris called on him, Harris went away, they had a noisy party in their room, and it was necessary for him to remove them. He was sure that Harris had an automobile while he was there. The terrible strain under which Harris is evidently suffering caused an outbreak on his part during the examination of President Frampton of the Artesia bank, at the morning session of the court. It came after Mr. Frampton, as postmaster at Artesia, had identified the package of \$350 worth of postage stamps of various denominations, captured in the attempt occupied by Harris and Frances Kennedy, April 25, last, at Denver. It was explained by the witness that the package was not developed or amplified.

Harris was ill at ease during the recital of this evidence, and his face was as white as chalk. Then Deputy District Attorney Clarke asked Mr. Frampton about a conversation he had with Harris in the County Jail on June 11.

WOULD PAY LOSSES.
Mr. Frampton said that Harris told him that everybody seemed to have it in for him, the Sheriff's office and the office of the District Attorney. He said Harris complained that certain attorneys were trying to hold him up for \$3000 to undertake his case.

"I believe I can do more with you than I can with the attorneys," Mr. Frampton said Harris remarked.

Harris, Mr. Frampton continued, admitted that there were five people on the Artesia job, and that there was \$3000 on deposit in a certain bank in San Francisco, which he was willing to go hand-cuffed to that city to deposit and turn it over to Mr. Frampton to recoup the sufferers by the burglary. Harris said, Mr. Frampton continued, that he thought he could get \$2000 each from the other participants in the robbery, and he figured out that if he turned over to them the money and other property that is now in possession of the authorities, the bank and store would be made almost whole for their loss. He then added that he wanted Mr. Frampton, the witness said, to go to the District Attorney and intercede for him.

Following this, the prosecutor led Mr. Frampton up to a second talk he had with Harris, June 13, two days after the first talk. It was here that Harris exploded. This conversation was in the presence of Jailor Gallagher, the witness said, as was the first talk. Frampton was asked by Harris if there was anything doing, referring to the purported remark made by Harris that he wanted him, the witness, to go to the District Attorney in the hope of getting him off as easily as possible. Frampton told him, the witness testified, that he would like to know if he could make good on any of his propositions to repay the loss sustained through the robbery.

At this point, Harris sprang to his feet and shouted, "What in the name of heaven are you saying my life away for? This man was continually coming to me, but the balance of the sentence was not finished. 'Why not stick to the truth?' yelled the prisoner, looking menacingly at Mr. Frampton and glaring at the court. Bailiff Harva Allen sprang at Harris and pushed him down in his seat.

"If you do not keep quiet, Harris, the court will suspend until you do," said Judge Taft.

"I don't care if you suspend until doomsday," came Harris' right back. "If you were not in the custody of the officers, now, Harris, I would accompany you right to jail for contempt of court," said Judge Taft. "I wish Mr. Eddie, that you would see to it that your client does not further disturb the proceeding in this court," followed Judge Taft.

Mr. Eddie said the outbreak was unexpected and that he would do all he could to restrain Harris. Frances Kennedy, the companion of the prisoner, slipped into a chair by his side, and talked to him, quieting him for the time. A threat by court attaches to gag him, if he did not keep quiet, also operated to calm Harris, who

NO PREMIUM ON DISSOLUTION.

Won't Cost Any More to Die Than Formerly, Under Revenue Ruling.
"Rah! rah!" The cost of dying is not to be advanced, so far as Uncle Sam is concerned. Internal Revenue Collector Carter yesterday received a decision from Commissioner Roper regarding the cost of burial caskets, in which it is now held that they are not subject to tax under the provisions of the revenue act of 1914, even though ornamented, mounted or fitted with precious metals or imitations thereof.

Under this ruling, it is pointed out, anybody expecting to die soon need not postpone the date on account of the fear that there is a tax to be levied and paid on burial caskets.

WORK APPRECIATED.

Public Service Board's Tribute to the Late John F. Andrews.
At the meeting of the Board of Public Service Commissioners, Tuesday afternoon, just prior to the funeral of the late John F. Andrews, formerly a member of this board, Commissioner Del Valle moved that the following resolution of condolence be adopted, and this motion was taken.

"Be it resolved, that the members of the Board of Public Service Commissioners of the city of Los Angeles have learned with sorrow and regret of the death of John F. Andrews, formerly a member of this board, and who for twenty-five years was a conspicuous figure in the business life of this city. Remembering him as a cultured gentleman, a patriotic citizen and a kind, just and honorable man, we deplore his death as a serious loss to the city and State. And be it further

"Resolved, that the members of the board extend their heartfelt sympathy to the family of Mr. Andrews in their great bereavement."

TOO DRY FOR HIM?
Fermín Arango, arrested yesterday by Deputy Sheriff Sepulveda, has no desire to go to a dry cell like Arizona, he said yesterday. He is charged with selling liquor illegally in that State, and says he will fight extradition. He was taken at 323 Aliso street, and was lodged in the County Jail.

BAD BREATH

DO YOU WANT your friends to avoid you? They will certainly do so when your breath is bad. There is no excuse for anyone having a bad breath. It is caused by disorders of the stomach which can be corrected by taking Chamberlain's Tablets. Many have been permanently cured of stomach troubles by the use of these tablets after years of suffering. Price 25 cents per bottle.

Chamberlain's Tablets

Try Roid-Gold Pretzels as an addition to luncheon. You'll eat them one after another because they are so tasty, so delicious, so healthful.

Served with milk, Roid-Gold Pretzels make a suitable and satisfying luncheon. Remember, too, they add a taste that is different to your desserts.

Roid-Gold Pretzels are made of choice flour, boiled, baked and toasted. They are always clean, crisp and wholesome. You'll enjoy the snappy, palate-pleasing taste of these golden-brown twists. Pretzels are the kind of food upon which youngsters thrive. Look for the Roid-Gold Glass Case on the counters of Grocery and Delicatessen Stores.

MAY OUST HUNS FROM SOCIETY.

Padena Scientists Attend Conference in Belgium.

Family Famous in Court Split into Factions.

Veteran Colonel Assigned to High School Cadet Corps.

LOCAL CORRESPONDENCE.

PADENA, July 30.—Three noted scientists from Pasadena are attending work in which he is engaged.

In Brussels, Belgium, sitting at a conference at which the science of Germany is on trial—that is to say, the scientists are deliberating whether, because of German misuse of science in the world war, German scientists will not be excluded from the League of World Scientists.

The Pasadena men at this important session are Dr. Walter Adams, assistant director of the Mt. Wilson solar observatory, and Prof. Frederick H. Seares and Prof. Charles E. St. John, both of the Mt. Wilson observatory staff. They were delegates at the conference of the United States National Research Council, of which Dr. George E. Hale, director of Mt. Wilson observatory, was the organizer, and until recently, the chairman. Dr. Hale himself was to have gone to the Brussels conference, but found it impossible to leave some scientific work in which he is engaged.

American representatives of all branches of science are in Brussels, where scholars from all the Allied and neutral countries are gathered. Dr. W. W. Campbell of California, director of Lick observatory, is chairman of the astronomers' division of the conference.

The conference is reorganizing the International League of Scientific Societies and the prime question is what penalty German science must pay for conduct regarded as unethical and inhuman, by many of the Allied scientists, during the war. Whether German scientists will again be admitted to the league is a question.

The Pasadena men left very quietly for the meeting abroad. They asked friends to say nothing of their departure, which did not become known until today.

Livingstons in COURT.

Did Mrs. Mathilda Livingston, mother of Ben and Robert Livingston, who were convicted by court-martial in the celebrated draft-evasion case, following their flight to Central America, land furniture to her son-in-law, Joseph W. Schultz, or was the furniture a wedding gift to him and his daughter? This question is now being argued in Judge Raymond G. Thompson's justice court here, in Mrs. Livingston's suit against Schultz to recover the furniture, said to be valued at \$300.

The trial of the suit shows that the Livingston family is rent by dissension. On one side are the elder Mrs. Livingston, Ben Livingston, Mrs. Frances Schultz, wife of the defendant. The Schultzes have separated. On the other side are Mr. Schultz, Mrs. Ben Livingston, who is suing for divorce from her husband, and Mr. Schultz's sister, Mrs. K. Schultz.

Mr. Schultz and Mrs. Ben Livingston testified today that Mrs. Livingston gave the furniture as a wedding gift to Ben and Robert Livingston, who were convicted by court-martial in the celebrated draft-evasion case, following their flight to Central America, land furniture to her son-in-law, Joseph W. Schultz, or was the furniture a wedding gift to him and his daughter? This question is now being argued in Judge Raymond G. Thompson's justice court here, in Mrs. Livingston's suit against Schultz to recover the furniture, said to be valued at \$300.

COMMANDS R.O.T.C.

Col. Pierce A. Murphy, United States Army, whose home is at 292 Bellevue drive, this city, will be the commanding officer of the Junior Reserve Officers' Training Corps at Pasadena High School this fall. Announcement of his assignment was made today at the Board of Education office. Principal Walter C. Wilson of the High School had petitioned the War Department to assign Col. Murphy here. He is at present commanding of the R.O.T.C. at the Presidio, San Francisco. He is a West Point graduate, a veteran of the Mexican border campaign and was overseas in the world war for eighteen months.

WILL BUILD BLEACHERS.

Bleachers and lockers for the R.O.T.C. at the Pasadena High School, costing \$11,500, will be built by the J. J. Griffin Construction Company of Los Angeles, which was today awarded the contract by the Board of Education.

GIRL HURT IN CRASH.

Miss Gertrude Urtien, 712 Sacramento street, Altadena, prominent in the activities of the Altadena Methodist Church, lies seriously injured at her home as the result of an automobile collision, in which the car in which she was riding was struck by another car. Other occupants of the automobile escaped with slight bruises.

CITY PROVIDES LANDING BARGE.

SPECIAL ACCOMMODATIONS FOR VISITORS TO BATTLESHIP FLEET.

REDONDO BEACH, July 30.—The local committee and Chamber of Commerce officials are arranging a suitable landing to accommodate visitors to the warships, which will drop anchor in these waters next month. Since the wrecking of the municipal pier by storm last winter, no landing place has been available. With the word that Redondo Beach was to have a part of the Pacific fleet this question arose.

A barge will be secured from San Pedro and steps built to it, so that tug boats playing from the ships to the pier may discharge passengers with no danger to the latter.

The fact that the ships will remain much longer than planned at first has stimulated enthusiasm locally, and the committee of general arrangements, consisting of L. Somers, C. J. Funk, W. R. Smith, I. H. Hawkins, George Orsberg and E. J. Murphy, are working to complete their plans.

CITY OFFICIALS GET MORE PAY.

Long Beach Police and Firemen Given Increase.

Attorney Starts Court Action for Election Recount.

New Civil Service Commissioner to be Named Friday.

LOCAL CORRESPONDENCE.

LONG BEACH, July 30.—City Commissioners late this afternoon passed on final reading an ordinance providing for increased salaries for the members of the police and fire departments. The new wage scale, increasing the pay of each member of those two branches of the city government, will go into effect September 1.

In their petition to the Commissioner of Public Safety, W. M. Peak, the police and fire departments asked for a flat increase of \$20 a month throughout. It is estimated, however, that the wage increase to be granted will be between \$10 and \$15 per month.

Salary increases were also granted today to employees of the public property, public works and finance departments of the city.

George M. Spier, president of the Long Beach Bar Association, will be the plaintiff in the legal action to be instituted in the Superior Court next week to secure a recount of the ballots in the recent municipal election.

Attorney Louis N. Wheaton has secured affidavits from election officials showing that blank ballots in numbers believed sufficient to project the outcome of the City Hall project.

Fifty-seven blanks, it is said, would insure the erection of a new \$400,000 City Hall, on the site of the present building used for that purpose.

RECOMMEND CIVIC CENTER.

The members' council of the Chamber of Commerce today recommended that a plan for the erection of a civic center, new City Hall, and the acquisition of extensive beach property be placed before the city for their consideration. The program could be carried through for an approximate expenditure of \$2,500,000, it is estimated.

A. C. Grube, former Police Commissioner, or Thomas W. Williams, former Chief of Police, will be named as Commissioner of the company, plans are now being made for an extension of several miles to the west of Woodlake of the line of the Visalia Electric Railway. It is understood the surveys are to be run at once.

John D. Seale, Public Works Commissioner, today nominated John D. Mutch to succeed J. O. Sawkins, dismissed by the legislative body yesterday, as city plumbing inspector. The appointment was confirmed unanimously by the Commissioners without discussion.

BRINGS FRENCH BRIDE.

SANTA ANA, July 30.—Lieut. Paul Constable of Anaheim is the first Orange county soldier to return home with a French bride. She was Miss Louise of Nancy, and they have just arrived at Anaheim from overseas. His parents knew of the wedding previously, but did not divulge the secret until the arrival of their son and his bride.

SEEKS RELATIVE.

Stranger Arrested at Pomona, May Have a Past.

LOCAL CORRESPONDENCE.

POMONA, July 30.—Chief of Police Lyter has received a telegram from W. H. Constantine, of San Francisco, asking for information regarding a man arrested in San Dimas giving his name as W. H. Constantine.

The arrest was made March 18 on a charge of burglary. The man, who claimed to be an ex-soldier, broke into a rancher's home in the absence of the owner. The latter returned and found the stranger asleep in one of the beds. The San Francisco man thinks that the stranger may be a relative for whom they have been looking a long time.

After his arrest Constantine admitted that he was the mysterious man who had been seen in the foothills north of San Dimas for several days. He said he was unable to find work and wandered about looking for work. He was sentenced to get out of town after his arrest and he has been lost.

DOUBLE TRAGEDY.

Porterville Rancher Shoots Wife and Then Himself.

LOCAL CORRESPONDENCE.

PORTERVILLE, July 29.—Antonio Casazza, a farmer of the Exeter district, shot and killed his wife Maria, from whom he separated a year ago, at the Porterville Alfalfa Company's ranch, seven miles west of here late yesterday afternoon, a survey showed the Indians were wasting more than 100 inches of continuous flow on reservation property.

The Success people have a ditch right prior to the establishment of the reserve and claim their title to the water has been fully sustained by the court.

RESORT SEASON IS BIGGEST IN HISTORY.

LOCAL CORRESPONDENCE.

REDLANDS, July 30.—This has been the best season in history for the resorts of the San Bernardino Mountains, according to reports from all of the summer playgrounds. Frank Culver, manager of Forest Home, says that the resorts are doing an August business through July this year and that August will see the greatest crowd in history in the mountains. At Forest Home twelve new cabins, all with three bedrooms and costing several thousand dollars, a new office building and other improvements have been made. These cabins are built for winter use for winter sports at Forest Home and were an attraction for thousands last year.

"TIMES" FLYERS TO VISIT ALHAMBRA.

LOCAL CORRESPONDENCE.

ALHAMBRA, July 30.—Alhambra will be one of the places selected by the Mercury Aviation Company as a landing place for the Flying Circus of the Times. The Chamber of Commerce has given their support to the affair, and steps are being taken to provide a suitable field for an airplane landing. It is thought that a large field south of the city, in the direction of the Midway Club, will be utilized by the circus, as it seems to have all the necessary requirements as to dimensions, which are 60x200 yards with the long way heading into the prevailing winds, with one end clear of wires, trees and buildings.

The dates on which the circus will visit will be August 20 and 21. Views of the city and all the San Gabriel Valley will be taken from the airplanes.

UP TO THE VOTERS.

LOCAL CORRESPONDENCE.

POMONA, July 30.—For some time a committee has been at work here getting information on available sites for a new high school building for which it is proposed to bond the city. Several sites have been suggested in different parts of the city, but no conclusions have been reached. It is now proposed to have the committee select from all the sites suggested two or three which appear to be the most feasible and place them on the ballot at the time the bonds are voted upon and thus allow the voters to select their own site.

FUNERAL FOR TRUCK VICTIM.

LOCAL CORRESPONDENCE.

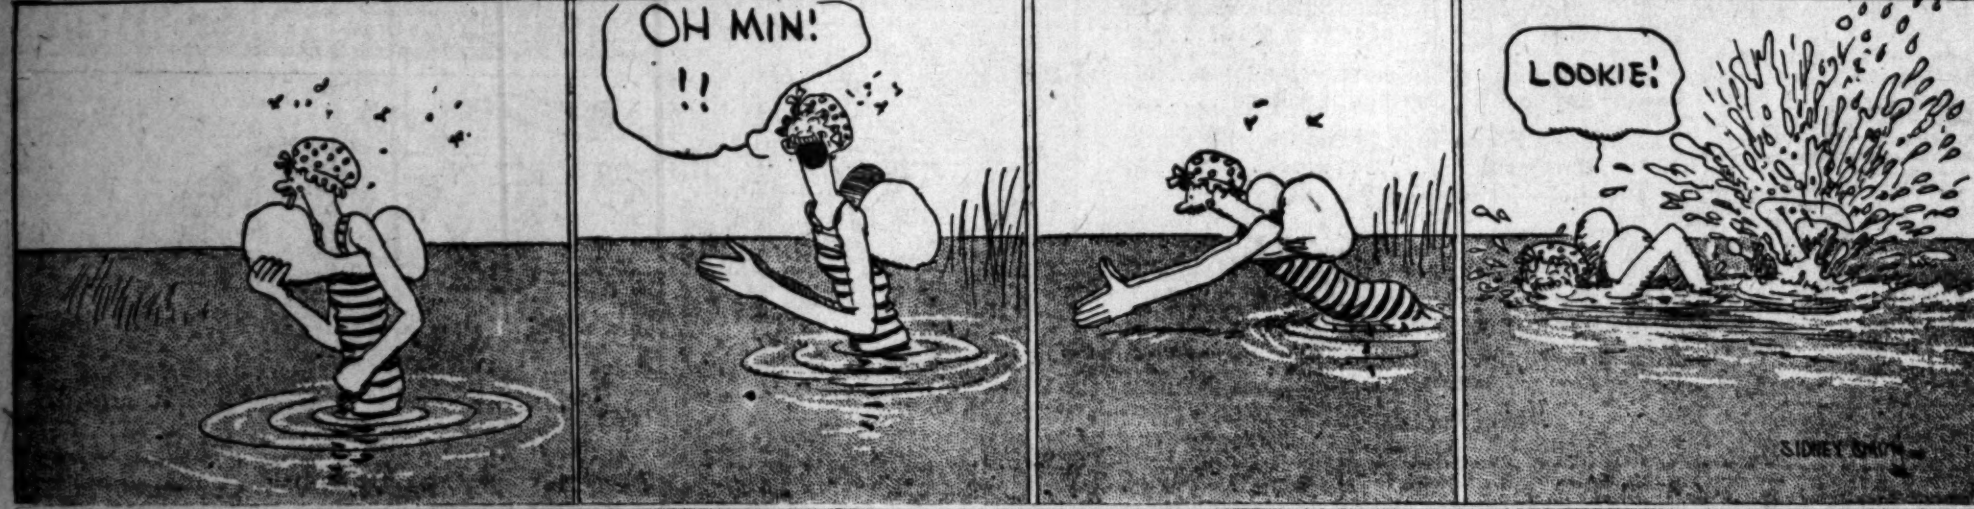

DUNBAR, July 30.—Funeral services were held this afternoon at Dunbar for Willie Stouffer, aged 30, son of A. Stouffer, a Sultana merchant, who was killed in a fall from a motor truck.

Stouffer joined a party of young people who were going to the river for a bathing party. He was thrown from the truck when the machine started, one of the wheels passing over him. He died a short time after being brought to a hospital here.

GERMANS INTENDED TO KEEP LIEGE.

German Attitude in 1917 Told by Premier Bauer.

Belgium ex-Kaiser will be Tried, Found Guilty.

von Hindenburg Would Hear No Indemnity Talk.

BY CHAS. AND ASSOCIATED PRESS. COPENHAGEN, Monday July 28.—The attitude of the German high command in 1917. Chancellor Michaelis drew up a tentative plan for the demand for Liege and adjacent territory and the German union of Belgium with Germany. The Chancellor, however, refused to hold Liege only provisionally as a factor of security.

He would hear of no talk of indemnities, nor would he indicate Germany's intention to the enemy.

Dr. Ludendorff, another of the high military authorities, was for giving the entire Liege district in German hands. He advised strong military pressure and the driving back of the British and French.

The German attitude was disclosed by declarations read by Premier Bauer before the Weimar assembly when the peace overtures to Germany, alleged to have been made by Great Britain and France through the Vatican in August, 1917, were again the subject of discussion.

Dr. Hermann Mueller, the Foreign Minister, read the much discussed telegram from the British Minister at the Vatican to the papal secretary of state.

BRITISH NOTE TO VATICAN. The British telegram, not dated, showed:

"We have not yet had an opportunity to consult the Allies regarding the note received from your office."

MIDDLE WEST NEWS IN BRIEF.

[EXCLUSIVE DISPATCH.]

ST. LOUIS, July 30.—Edward F. Beach, 6014 Cabanne avenue, president of the St. Louis Rubber Cement Company, died at the Missouri Baptist Sanatorium yesterday afternoon of blood poisoning. He accidentally cut his foot with an axe July 13, while chopping down a tree for exercise at a gymnasium in St. Louis county. An operation was performed Monday.

Julius A. Baer, vice-president of the St. Louis Rubber Cement Company, returned today from a four-months' trip in the Orient and was entertained at breakfast at the Columbia Club by executives of the firm, to whom he related his experiences.

The marriage of Miss Marion Scott Winstead, daughter of George Wesley Winstead, 4238 Maryland avenue, to Edwin Roosevelt Thomas, son of Mr. and Mrs. Charles E. Thomas of "Lafayette" on Olive and Olive street roads, took place at 6 p. m. today.

ST. PAUL. [EXCLUSIVE DISPATCH.] ST. PAUL, July 30.—Asserting that Duluth and other cities are threatened with destruction by a forest fire greater than that of last October which resulted in the loss of life and property.

Major Hodson's Welcome. Committees today began preparations for a big greeting celebration on the arrival of St. Paul men of the Third Pioneer Infantry regiment, who are expected to reach here early tomorrow.

Two pickpockets joined the Omaha railroad clerks on the train going to a picnic at Hudson and obtained nearly \$200.

Ramsey county may create a new sanatorium for tuberculosis patients as a result of the proposed abandonment of the present institution at Lake Ojawa. The Board of County Commissioners admitted today.

INDIANAPOLIS. [EXCLUSIVE DISPATCH.] INDIANAPOLIS, July 30.—Indianapolis women of both parties were aroused today by the action of Gov. Goodrich in postponing the calling of a special session of the Legislature because a way has been found to relieve the financial condition of State institutions.

The women had hoped that the Legislature would take action on the proposed amendment to the constitution to provide for a special session of the Legislature because a way has been found to relieve the financial condition of State institutions.

GIVE PERSHING HIGHEST HONOR.

House Committee also Makes March a General.

Opposition to Conferring Equal Titles.

Marine Corps is Reduced to Peace Strength.

[BY A. F. NICHOLS.]

WASHINGTON, July 30.—Favorable reports on bills authorizing the appointment of Gen. John J. Pershing and Peyton C. March, Chief of Staff, to the permanent rank of general were ordered today by the House Military Committee.

The vote on Gen. Pershing was unanimous, but the committee divided 8 to 7, on Gen. March. Previously the committee voted down, 8 to 7, a motion to confer the permanent rank of lieutenant-general on Gen. March.

Some members expressed decided opposition to creating the permanent rank of general for more than one officer. It was said that there was no personal opposition to Gen. March, but a fight on the floor of the House against conferring the permanent rank of general on him was expected.

The measure as drawn provided that Gen. Pershing shall take precedence over Gen. March, as suggested by President Wilson.

Some Democratic members of the committee who voted to give March the rank of general were quoted as saying during the committee discussion that personally they favored giving him rank as lieutenant-general, but that they would vote the higher rank because the President requested it.

The committee vote was not along political lines, however, three Republicans joining with five Democrats in voting out the bill. Six Republicans and one Democrat voted in the negative. They desired to restore the rank of lieutenant-general.

Reduction in rank or discharge of more than 1100 officers of the Marine Corps was announced today by Maj. Gen. Barnett as a part of the programme of reducing the corps from its war-time strength of about 15,000 officers and men to a permanent strength of 25,000.

A total of 655 officers were discharged while the remainder were returned to their pre-war ranks. The reductions included four brigadier-generals to colonels; eleven colonels to lieutenant-colonels and seven lieutenant-colonels to majors. The names of the officers were withheld temporarily.

CHANCE COURT-MARTIAL. One article of war and changes in thirty others have been recommended by the special board of officers appointed early in the war to investigate the army court-martial system. In making this announcement today Secretary Baker said he would transmit the board's report to Congress.

"The board, upon the whole, finds no radical defects in the system and it attributes the greater part of the just criticism not to inherent faults of the system itself," said Mr. Baker. "But rather to the inexperienced personnel called upon to administer it at a time of stress when the great thing was to get 4,000,000 men quickly in shape for the fighting line."

VICTORY RIBBONS SOON. Distribution of victory ribbon bars will begin immediately after maneuvers start delivering them on August 5, the War Department announced today. Four hundred thousand bars will be sent to recruiting stations and army posts in the first shipment. Victory medals will be distributed through the same agencies later.

DAILY TRADE TALK.

New July Records; L.A.I. Comes Back; Hay Price up; Fresh Issues.

BY CHAPIN HALL.

Here is a comparative table of bank clearances in Los Angeles for the month of July for the past five years. It exemplifies to a greater degree than anything which could be written the steady, continued growth of the city both commercially, industrially, financially and in population for without a remarkable development along each of these lines the statistical story could not be told:

Year	July	Aug.	Sept.	Oct.	Nov.	Dec.	Total
1914	\$1,000,000	\$1,000,000	\$1,000,000	\$1,000,000	\$1,000,000	\$1,000,000	\$6,000,000
1915	\$1,000,000	\$1,000,000	\$1,000,000	\$1,000,000	\$1,000,000	\$1,000,000	\$6,000,000
1916	\$1,000,000	\$1,000,000	\$1,000,000	\$1,000,000	\$1,000,000	\$1,000,000	\$6,000,000
1917	\$1,000,000	\$1,000,000	\$1,000,000	\$1,000,000	\$1,000,000	\$1,000,000	\$6,000,000
1918	\$1,000,000	\$1,000,000	\$1,000,000	\$1,000,000	\$1,000,000	\$1,000,000	\$6,000,000

The figures for this month represent the actual clearing of the banks with today's clearing commercially estimated. This month has far outstripped all others in volume of clearing. The nearest rival was June, when the total reached \$17,756,356, or more than \$10,000,000 less than the figure for July, which in turn will approximate \$10,000,000 increase over July, five years ago. A fair example of the rapid growth may be gleaned from the daily clearances. Yesterday's total was \$7,199,493.58, compared with \$4,554,642.19 a year ago; a gain of \$2,644,851.39. During the month there have been several days upon which the clearances exceeded \$9,000,000.

Ordinarily August, September and October show a decline as compared with other months. The extent of this movement this year will furnish a further criterion upon which to base calculations for what promises at this midsummer state to be the greatest business year in the history of the city.

A DIVIDEND

OF 15% WILL BE PAID TO STOCKHOLDERS OF RECORD OF AUGUST 31 ON CONSOLIDATED OIL & PETROLEUM COMPANY. (A dividend paying and producing oil company.)

SALIENT FEATURES

1—Sole owners of the Stone lease with a producing well in the heart of the richest oil district in the Colorado Field, Pecos County, Kan.

2—A contract to drill 10 more wells in this field.

3—New completion of well in North-west extension of the Parkhurst Field, Texas, in Block 18, and negotiating to drill two more wells in this field.

4—Well No. 11 now down over 2500 feet expected in any hour.

5—Earning nearly \$1,000,000 a year, or over 4 1/2 times dividend charges from product production.

6—Outstanding stock \$1,000,000 par value.

7—Paying 15% dividends.

8—We recommend Consolidated Oil & Petroleum Company as a splendid buy, both from a standpoint of market, profit making and handsome dividend returns.

9—It is our opinion that this stock will sell at an ultimately higher price value.

10—We offer a limited amount of this stock at \$1.50 PER SHARE.

11—To net 15% (payable monthly) by check, or by cash, and photograph of the properties sent on request.

PRODUCE OFFERINGS

OF INFERIOR QUALITY.

PRICES TREND DOWNWARD

THROUGH WHOLESALERS ARE

BIG BUYERS.

Active character of the majority of the offerings on the local produce exchange yesterday, although a large percentage of the stock was of very common or inferior quality and in some cases unfit for local consumption. A downward price trend was in evidence throughout the entire session, despite the fact that wholesalers were big buyers in all lines of commodities.

Some of the fruit and vegetable offerings were the peak of their season and showed signs of advancing. The farmers continued to flood the market with first-class stock, but the heavy tendency to smash prices, in view of the possibility of a low level for the season, kept the local market from becoming overstocked. The local market for the past month has been receiving the bulk of the offerings from the local growers, but the heavy tendency to smash prices, in view of the possibility of a low level for the season, kept the local market from becoming overstocked.

Producers predict that there will be a serious shortage of the local market for the season is through and that they will demand high prices for their produce.

NEW YORK STOCK MARKET.

(BY A. P. NIGHT WIRE.)
NEW YORK, July 30.—Stocks were subjected
to widely conflicting influences today, creating
a volatile market. The general feeling was
one of uncertainty, with the market
shifting from a temporary advance to a
retreat. The main reason for the
advance was the news of the
armistice, which had been signed
last November. The market
was also influenced by the
news of the war, which had
been going on for a long time.
The market was also influenced
by the news of the peace, which
had been signed last November.
The market was also influenced
by the news of the war, which
had been going on for a long time.

POSIES TO RAIN ABOUT ARMADA.

Airplanes will Lay Flower Barrage Around Fleet.

Pacific Squadron Scheduled to Maneuver Near City.

Wilson to Review Ships in North, Then Come Here.

Positive assurance that the Pacific fleet, now en route to Los Angeles harbor, will be in this vicinity for two or three weeks was received yesterday in dispatches from Washington. It was announced that the armada, after the big celebration here, will continue at maneuvers and exercises in the vicinity of Los Angeles until about September 1, when it will steam for San Francisco.

Secretary Tamm yesterday stated that President Wilson will review the fleet at San Francisco either September 1 or 2, and will then visit this city.

Arrangements have been made by W. W. Blanchard, chairman of the Entertainment Committee, to have the steamer Catalina run and detailed to convey the local Welcoming Committee out to the fleet when it anchors here August 3. This committee will be composed of about 300 prominent women dressed in white. They will visit all the ships in the fleet while the Reception Committee greets Admiral Hugh Rodman and his staff on the Catalina.

Arrangements have been made by the Pacific Electric Railway to take both committees to the harbor. While the committee is welcoming the fleet a swarm of airplanes will fly over the ships, dropping flowers upon the water.

BUILDING LANDINGS.

The city of Los Angeles is building a string of barges at the harbor to reach a distance of 3000 feet along the waterfront, from First street, San Pedro, to the plant of the Globe Milling Company. Gangways will be built down to these barges from the wharf, and it is here that the 100 or more gasoline launches and motorboats will take on and discharge passengers when the fleet enters the harbor. The cost of this feature will be about \$8000, it is said.

Collector of Customs Elliott reports that officers of the fleet will embark and disembark at the end of Pier No. 1, where the submarine boats now tie up. The sailors will embark and disembark at the wharf between the end of Pier No. 1 and the Wood Lumber Company's slip.

Officials at the harbor are arranging to park autos free of charge in the wide space on Front street, extending eastward toward the plant of the Los Angeles Shipbuilding and Dry Dock Company. Machines will not be permitted to park for any length of time in the business district at the harbor while the fleet is here.

DECORATE EARLY.

The Reception Committee yesterday sent out hundreds of letters to owners of stores, offices, residences and homes, asking them to begin decorating early and use an abundance of flags and gay-colored bunting.

The fleet is scheduled to drop anchor here at 2 o'clock the afternoon of August 3. The remainder of the afternoon will be given over to a reception for the officers and men.

In the evening the Long Beach Chamber of Commerce will give a ball for the officers at the Hotel Virginia. The sailors who come to Los Angeles that night will be given theater parties.

Perhaps the biggest feature of the celebration will be a grand parade, which will take place at Exposition Park Sunday afternoon, August 16. This will follow a dinner given there for the sailors. The parade will be staged by the motion picture producers and will outlast,

MUST GO EARLY TO SEE FLEET.

Territo Jam is Anticipated on Roads and Rails When Ships Arrive.

Unless those who plan to go to the beaches on August 3, to see the fleet enter the harbor, begin leaving this city early Saturday morning, or better still, Friday night, thousands will be disappointed.

Members of the Transportation Committee of the several railroad companies here, of which O. A. Smith, of the Pacific Electric, is chairman.

"Hundreds of thousands of people in this city and the surrounding towns are preparing to see the fleet arrive," Mr. Smith said. "This means that rail and automobile facilities will be taxed to their utmost. All who are going should plan to leave early in the morning. The railroads will do their utmost to get the passengers to the harbor, but unless the travel starts early it will simply be an impossibility to operate the trains. The automobiles should also plan to go early, otherwise they will find the road so badly congested that no one will be able to make the trip."

It is said, any similar spectacle staged in Southern California.

TO DANCE IN STREETS.

The sailors will be feasted at Exposition Park again Monday, and in the evening they will be entertained at block parties and street dances in a roped-off space three blocks long, from Sixth to Ninth on Olive street. These parties will be held on Monday and Tuesday evenings and will be preceded by motion picture reviews which will feature all the prominent stars of Hollywood.

Tuesday afternoon a big field meet, featuring athletes of the navy in competition with one another, will be held at Exposition Park. The Finance Committee yesterday began its campaign for \$100,000 to expand the fleet welcoming celebration. The active campaign will be instituted within a few days, with perhaps 100 prominent young business men as solicitors. E. L. Doherty started the ball to rolling yesterday with a contribution of \$1000 to the fund.

NO PROFITEERING.

The San Pedro Chamber of Commerce has taken a hand in fixing the price of meals at the harbor during the stay of the fleet. Reports were received that an effort was being made to organize the restaurant keepers and boost prices. The directors of the Chamber of Commerce promptly called a meeting of all restaurant owners for Friday night and served notice upon the leaders of the movement that unless they all got together and agreed upon reasonable prices plans would be made to provide food through other channels so that the visitors would not be dependent upon the restaurants.

FUNDS FOR PLAY CAMP.

Although not provided for in the new city budget, \$240 is declared by the Playground Commission to be urgently needed for carrying out work pledged when the forestry service turned over to the city the use of grounds and property at Radford Camp, in the San Bernardino mountains, and which this season is providing a recreational and vacation center for hundreds of Los Angeles couples. The Council yesterday decided to allow the commission \$750 for this work.

URGE AN ADDED APPROPRIATION

Diversion Work Bids Exceed Government Allotment.

Council and Supervisors Join in Appeal to Congress.

Point Out Need of Starting Construction at Once.

An appeal to Congress to make an appropriation of \$400,000 to meet the deficit between the appropriation and the bid for construction of the diversion works near the Los Angeles and Long Beach harbors, will be made, it was decided yesterday, by the City Council and Board of Supervisors.

These bodies will also urge that as much of the work as the funds may be available for be undertaken immediately, so that protection will be assured at the next flood season. These decisions were reached at a conference held in the Council chamber, yesterday afternoon, which was attended by members of the Council, the Board of Supervisors, Flood Control Engineer Reagan, County Counsel Hill, City Attorney Burrall, who was special counsel for the flood control district, and other city and county officials.

Members of the Board of Supervisors fully explained the situation, stating that while the government made an appropriation for the diversion work, it was found, when the bids were opened, that there is a technical error in the lowest offer which may cause its rejection, and that the second best offer will cause a deficit of \$400,000, that the representatives of the government want the Board of Supervisors to become responsible for this deficit, but that as the county has provided for the right of way and the government has agreed to do the work under these conditions, an additional government appropriation would appear to be the only proper action.

After thorough discussion, it was determined that County Counsel Hill and City Attorney Burrall should prepare a statement of facts to be presented to Congress, with the plea that an additional \$400,000 be appropriated for the work. Supervisor Cogswell introduced the following resolution, which was adopted:

"Resolved by the Board of Supervisors of the Los Angeles county flood control district and the City Council of the city of Los Angeles, sitting in joint session, that so much of the work of constructing the diversion works near Los Angeles and Long Beach harbors, California, as may be undertaken with the funds available therefor, be undertaken immediately and prosecuted with all due diligence, and that the manner and place of doing such work be left to the discretion of the United States district engineer."

A resolution introduced by Councilman Wheeler, and adopted, reads as follows:

"Resolved, that the City Council co-operate with the Board of Supervisors in urging the government to appropriate sufficient funds to carry out the pending contracts for the protection and improvement of Long Beach and Los Angeles harbors."

AT SOUTHERN BRANCH.

State University Offers Many Lectures; Teachers Meet Tomorrow.

Ira Brown Cross, professor of economics at the University of California, will give a free lecture, tomorrow evening in the series which is being given at the Friday Morning Club House, in connection with the university's summer session in Los Angeles on "Bridging the Gap Between Capital and Labor."

"Art and Advertising" will be the subject treated by Perham William Kahl in a lecture to be given at 3 p. m. today, at the Southern California branch of the State Normal School.

"Americanization and Reconstruction in English and Public Speaking" will be the general subject for discussion at an informal conference and luncheon planned by teachers interested in those topics, for 11 a. m. tomorrow, Millsap Hall of the school.

William Lyon Phelps, Lamson professor of English at Yale, Miss Edna Sutherland, instructor in public speaking at the University of Manitoba and several others will be the speakers. Luncheon will be served at the university cafeteria, where an informal discussion will take place. Prof. Harold L. Bruce, of the department of English, is chairman of the affair.

STREET ASSESSMENT MAY BE SPREAD OUT.

A petition for the improvement of Odin street, from Highland avenue to its easterly terminus, was granted by the City Council yesterday. Hearing on the improvement of the assessment for the improvement of Carillo street, between West Kensington road and Bellevue avenue, was set forward until August 6. Meanwhile the Public Works Committee will hold conferences with the property owners, and it is believed a new plan of spreading the assessment will be evolved that will be acceptable to all parties concerned. This is a matter that has been before the Council for several months, and on which numerous spirited hearings have been held. It was one of the problems passed along to the new Council by the retiring body. Further hearing on the improvement of West Second street, San Pedro, was also deferred, the date being set for August 13. At yesterday's session the Council also provided an appropriation for lighting the Aliso-street bridge.

MAY AMEND BUILDING LAW.

The California Hotel Company, which is to erect a great tourist hotel in the Wilshire district, yesterday asked the City Council to amend the building ordinance in regard to certain phases of arch construction. The petition was referred to the building superintendent for report.

EPISCOPALIANS PLAN CAMPAIGN

Seek Funds for Church Work and for Betterments.

Would be in Position to do Part in Reconstruction.

James R. Page Named as Head of Local Committee.

With the naming yesterday of James R. Page as chairman of the committee that will have charge of the forthcoming Episcopal campaign for the diocese of Los Angeles, embracing the counties of Santa Barbara, Ventura, Los Angeles, San Bernardino, Riverside, Orange, San Diego and Imperial, the work of organization in the various parishes of the diocese will be rapidly completed, it was declared. The complete committee will be named within a few days.

The campaign for the diocese of Los Angeles will be directly under the supervision of Bishop Joseph Horstall Johnson, D.D., and the details will be in cooperation with the committee and with Bishop Johnson, who will be under the direction of the campaign of the Episcopal church in nation-wide and has for its objective the strengthening of church work and the stimulation of church effort, in furtherance of the program of other Christian churches to make the church adequate to meet the problems of the reconstruction needs as an outgrowth of the war and to secure, through gifts and intercession, the means whereby the work of the church may be developed and broadened, both in this country and abroad.

For the purpose of the campaign the United States has been divided into four general areas, the western area including California, Washington, Oregon, Nevada, Arizona, Idaho and Utah. The work in each area, while nominally under the supervision of the area committee, is handled by the diocesan and district committees, which in turn have charge of organizing the churches and their parishes.

The general committee for the western area, which is practically the territory of the Episcopal Church in America, is as follows: Bishop George C. Huntington of Reno; Bishop Herman Page, D.D., Spokane; Dr. George Davidson, Los Angeles; H. C. Wyckoff, Watsonville, and Mrs. A. L. McLeish of Berkeley.

The sum of \$10,000 has been set as a goal by the Episcopalians, although the raising of the fund is secondary to the major purpose of the campaign, which is, in brief, to quote the words of the national director of organization, Dr. R. W. Patton of New York:

"To bring the spiritual power of the church to bear upon the church's whole task. To secure and train an increased number of pastoral, clerical and lay, for Christian leadership. To care for on a year-by-year basis the financial needs of all the general boards, viz., the board of missions, the general fund of religious education, the social service commission, to

FINES UNION TOOL HEAD.

Federal Jurist Holds that Injunction is Violated by Concern.

Edward Double, president and manager of the Union Tool Company, was fined \$1000 by United States District Judge Bledsoe yesterday, following a hearing on the question of whether or not the corporation had violated an injunction issued out of the court, prohibiting it from making certain types of derailleurs used in oil-well operations. The suit to determine the issue was filed by Elihu C. Wilson.

Under the judgment of the court one-half of the fine is to go to Mr. Wilson, and if the money is not paid within thirty days, the order provides that Mr. Double is to be committed to the County Jail until the claim is satisfied.

Judge Bledsoe found that the Union Tool Company had violated the injunction issued out of the court by manufacturing, selling and offering for sale a certain so-called pocket type of under-runner, and also what is known as the U-type of such device.

The decision of Judge Bledsoe required more than an hour in its delivery, during which the actions of the Union Tool Company, through its president, Mr. Double, were strongly criticized.

"TIMES" NEWSBOYS IN FROLIC BESIDE SEA.

Newsboys employed by Ralph Myers, Ontario agent for The Times, had a frolic day before yesterday at Balboa Beach as the guests of their employer. The boys, nine in number, were taken to the seaside in Mr. Myers' car and enjoyed themselves to the full, at motor-boating, swimming and other amusements.

Mr. Myers will bring them to this city in August, and they will enjoy the sport offered by The Times' Flying Circus.

The lady who made the trip to Balboa Beach are Arno, David Beck, Roy McDill, Lloyd Dalen, George Tate, Eddie Acuna, Gus Pifer, Guy Pifer and Philip Smith.

CHILD BEATEN, SAYS WIFE; GETS DIVORCE.

Mrs. Oliva M. Camack was granted a divorce yesterday from James R. Camack, employed by a local shoe company, following testimony in Judge Shank's court regarding alleged beatings given a son of the couple. Mr. Camack sued for divorce, alleging desertion, but his wife won the decree on a cross-complaint.

The wife alleged that in 1912 she and her son, James, then 13 years old, had to leave home because the husband was so cruel to the boy, who died about a year ago. The husband said he punished the boy because of untruthfulness.

LOAN FOR HARBOR WORK.

The new City Council at yesterday's session continued the policy adopted by the recently retired Council of making loans to the harbor Commission, to be repaid out of the money secured from sale of harbor improvements bonds. For the purpose of carrying on continuous work on the seawall at Fish Harbor, the Council voted to loan the commission \$10,000 for prosecuting the work during the month of August.

RUSH PAVING ORDINANCE.

The City Engineer yesterday presented to the City Council the ordinance of intention for the paving, guttering, curbing and sidewalking of the new extension of South Broadway, from Tenth to Pico streets. As the Council is in full accord with this improvement, and desires to advance it in every possible manner, it voted to suspend the rules and immediately adopt the ordinance.

HERE'S GUIDE TO TAXPAYERS.

Revenue Collector Issues Instructions to Save Waste of Time, Trouble.

Wrong impressions held by taxpayers regarding the revenue law cause much trouble and loss of time, says Collector Carter, and he yesterday gave out the following as a guide:

Don't remit without the proper form.

Don't send a form without the proper remittance.

See that the correct name and address are on every sales tax form and that both original and duplicate are signed.

Every sales tax form must be sworn to if the tax exceeds \$10; otherwise it must be acknowledged by two witnesses.

Specify the month for which the tax is paid and include the full month's business; write legibly, and in case of change of address indicate it plainly.

Don't send a form without the proper remittance.

See that the correct name and address are on every sales tax form and that both original and duplicate are signed.

Every sales tax form must be sworn to if the tax exceeds \$10; otherwise it must be acknowledged by two witnesses.

Specify the month for which the tax is paid and include the full month's business; write legibly, and in case of change of address indicate it plainly.

PRINCE ALBERT

the national joy smoke

Scrub up your smokedecks and cut for a new pipe deal!

SAY, you'll have a streak of smoke-luck that'll put pep-in-your-smoke-motor, all right, if you'll ring-in with a jimmy pipe or the papers and nall some Prince Albert for packing!

Just between ourselves, you never will wise-up to high-spot-smoke-joy until you can call a pipe by its first name, then, to hit the peak-of-pleasure you land square on that two-fisted-ran-tobacco, Prince Albert!

Well, sir, you'll be so all-fired happy you'll want to get a photograph of yourself breezing up the pike with your smoke-throttle wide open! Talk about smoke-sport! You

wager-your-wad on P. A. and a good Quality makes Prince Albert a different, so appealing all along the line.

Men who never before could smoke a pipe and men who've smoked pipes for years all testify to the delight it hands out! P. A. hits the universal taste. That's why it's the national joy smoke! And, it can't bite or parch. Both are cut out by our exclusive patented process!

Right now while it's good going get out your old jimmy pipe or the papers and land on some P. A. for what ails your particular smoke appetite!

You buy Prince Albert everywhere tobacco is sold. Toppo red bags, tidy red tins, handsome pound and half pound tin humidors—and that classy, practical pound crystal glass humidur with sponge moistener top that keeps the tobacco in such perfect condition.
